Ligitek Electronics Co., Ltd.

Declaration Statement

December 31, 2025

The entities that are required to be included in the consolidated financial reports of affiliated enterprises of Ligitek Electronics Co., Ltd. as of and for the year ended December 31, 2025, under the “Criteria Governing Preparation of Affiliation Reports, Consolidated Business Reports and Consolidated Financial Statements of Affiliated Enterprises”, are the same as those included in the consolidated financial statements prepared in conformity with the International Financial Reporting Standards 10 (“IFRS 10”). In addition, the information required to be disclosed in the above consolidated financial reports of affiliated enterprises has been included in the consolidated financial statements per IFRS 10. Consequently, Ligitek Electronics Co., Ltd. and Subsidiaries do not prepare a separate set of consolidated financial reports of affiliated enterprises.

Declared herein,

Company name: Ligitek Electronics Co., Ltd.

Responsible person: Tung, I-Hsin

February 25, 2026

Independent Auditors' Report

To: Ligitel Electronics Co., Ltd.

Opinion

We have audited the consolidated financial statements of Ligitel Electronics Co., Ltd. and its subsidiaries (the "Group"), which comprise the consolidated balance sheets as of December 31, 2025 and 2024, the consolidated statements of comprehensive income, consolidated statements of changes in equity, and consolidated statements of cash flows for the years ended December 31, 2025 and 2024, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards ("IFRS"), International Accounting Standards ("IAS"), IFRIC Interpretations ("IFRIC"), and SIC Interpretations ("SIC") endorsed and issued into effect by the Financial Supervisory Commission R.O.C. (Taiwan).

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountant and auditing standards of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Professional Ethics for Certified Public Accountant of the Republic of China (the "Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's consolidated financial statements for the year ended December 31, 2025 are stated as follows:

Revenue Recognition

Please refer to Note 4.20 "Revenue Recognition" for details of the accounting policies.

Description on the key audit matter:

Sales revenue is a main indicator that investors and management use to evaluate financial and operating performances. Due to the industrial characteristics of the Group and that the sales prices are affected by fluctuations of market conditions, whether the timing of revenue recognition is correct or not would significantly affect the consolidated financial statements. Therefore, we consider revenue recognition as a key audit matter.

Audit procedures in response

The main audit procedures that we had performed to address the above matter are as following:

1. Understood and tested the effectiveness of the design and execution of the internal control system governing revenue recognition of the Group.
2. Tested correctness of the timing of revenue recognition.
3. Conducted analyses addressing sales to top ten clients and compared the changes to assess whether there is any significant abnormality.

Valuation of Expected Credit Losses on Receivables

Please refer to Note 4.7 of the financial statements for details of the accounting policies regarding evaluation of expected credit losses on receivables and Note 6.4 for loss allowance and related disclosures.

Description on the key audit matter:

Since the recognition of loss allowance according to the expected credit losses during the existing periods of receivables is based on the management's subjective judgment on the recoverable amounts and subjected to effects from the management's assumption on the clients' credit risks, plus the balance of receivables is material to the consolidated financial statements as a whole, we consider valuation of expected credit losses from receivables as a key audit matter in our audit of the financial statements.

Audit procedures in response

The main audit procedures that we had performed to address the above matter are as following:

1. Carefully evaluated the reasonableness of the management's assumption on valuation of expected credit losses from receivables and understood recent credit situations in the industry and payment collections in the previous year.
2. Tested correctness of aging reports, audited historical collection records, analyzed industrial and economic conditions and whether there is abnormality in concentration of credit risk, to evaluate the reasonableness of the recorded amount of loss allowance for receivables.

3. Regarding receivables generated from specific transactions, on the disputed issues, evaluated the legal proceedings related to the disputes, precedent rulings on similar transactions, various objective evidence related to the disputes and opinion from attorney, etc., to evaluate the reasonableness of loss allowance for the receivables.

Cash and Cash Equivalents

Please refer to Note 4.6 of the consolidated financial statements for details of the accounting policies for cash and cash equivalents and Note 6.1, Note 6.6 for the related disclosures.

Description on the key audit matter:

Due to existing inherent risk of cash and cash equivalents and bank time deposits with original maturity over 3 months, and the fact that cash and cash equivalents and bank time deposits with original maturity over 3 months accounted for approximately 40% of the total consolidated assets and were material to the consolidated financial statements as a whole, cash and cash equivalents and bank time deposits with original maturity over 3 months are considered key audit matters.

Audit procedures in response

The main audit procedures that we had performed to address the above matter are as following:

1. Evaluated and tested the internal controls governing management of cash and cash equivalents and bank time deposits with original maturities of more than 3 months.
2. For significant cash receipts and disbursements, we verified the related transaction documents, obtained the breakdowns for the balances of recorded bank deposits and reconciled to the bank statements. In addition, we reconciled the recorded balances of bank deposits to the amounts in the bank confirmations and examined whether the bank deposits in the bank confirmations are subjected to restrictions and properly disclosed in the financial statements.

Other Matters

We have also audited the parent company only financial statements of Ligitek Electronics Co., Ltd. as of and for the years ended December 31, 2025 and 2024 on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission R.O.C. (Taiwan), and for such internal controls as management determines necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is also responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance of the Group, including members of its audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2025 and are therefore the key audit matters. We describe these matters in our auditors' report unless the laws or regulations preclude public disclosure on such matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the negative impact of doing so would reasonably be expected to be greater than the increased public interest from such communication.

The engagement partners on the audit resulting in this independent auditors' report are Wang, Wu-Chang and Chen, Chao-Hui.

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, financial performance and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the independent auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language independent auditors' report and consolidated financial statements shall prevail.

(The accompanying notes are an integral part of the consolidated financial statements.)

Ligitek Electronics Co., Ltd. and Subsidiaries

Notes to Consolidated Financial Statements

For the Years Ended December 31, 2025 and 2024

(Amounts in Thousands of New Taiwan Dollars, unless specified otherwise)

1. General Information

Ligitek Electronics Co., Ltd. (hereinafter, the “Company”), founded on June 27, 1989 after approval of the Ministry of Economic Affairs. The Company primarily engages in manufacturing, processing and trading of various electronic components (Light-Emitting Diodes (LED), monitors), along with import/export trading, agent, distribution, bidding and quotation businesses of the above related products and raw materials. For the main business activities of the Company and its subsidiaries (together, the “Group”), please refer to descriptions in Note 4.3(3).

The Company's shares have been listed and traded on the Taipei Exchange since February 9, 2004.

In addition, the Company is the Group’s ultimate parent company.

These consolidated financial statements are presented in the Company's functional currency, New Taiwan Dollars.

2. The Authorization of the Consolidated Financial Statements

The accompanying consolidated financial statements were approved and authorized for issuance by the Board of Directors on February 25, 2026.

3. Application of New Standards, Amendments, and Interpretations

3.1 Effects from application of International Financial Reporting Standards, International Accounting Standards, Interpretations and Standard Interpretations (collectively “IFRSs”) endorsed and issued into effect by the Financial Supervisory Commission R.O.C. (Taiwan) (“FSC”):

The following summarizes the newly issued, amended or revised IFRSs that are endorsed by FSC and effective for 2025:

Newly Issued/Amended/Revised Standards and Interpretations	Effective Date Announced by IASB
Amendments to IAS 21 “Lack of Exchangeability”	January 1, 2025
Amendments to IAS 21 “Lack of Exchangeability”	

This amendment defines exchangeability and provides guidance on how to determine the spot exchange rate for measurement purposes when a currency lacks exchangeability. Additionally, this amendment requires entities to provide more

useful information in their financial statements when a currency is not exchangeable into another currency.

Based on the Group’s assessment, the application of the New IFRSs above will not have significant impact on the Group’s financial position or financial performance.

3.2 The impact of not yet adopting the newly issued and revised IFRSs endorsed by the FSC is summarized in the following table:

New standards, interpretations and amendments endorsed by the FSC and effective from 2026 are as follows:

Newly Issued/Amended/Revised Standards and Interpretations	Effective Date Announced by IASB
Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”	January 1, 2026
Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”	January 1, 2026
IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17 “Insurance Contracts”	January 1, 2023
Amendments to IFRS 17: “First-time Adoption of IFRS 17 and IFRS 9—Comparative Information”	January 1, 2023
Annual Improvements to IFRS Standards—Volume 11	January 1, 2026

Except as described below, the Group has assessed that the above standards and interpretations have no material impact on the Group's financial position and financial performance.

(1) Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”

A Clarify and enhance guidance for assessing whether financial assets meet the Solely Payment of Principal or Interest (SPPI) criteria, covering contractual terms that alter cash flows based on contingent events (e.g., interest rates linked to ESG targets), non-recourse instruments, and contractually linked instruments. A. The business does not have the ability to withdraw, suspend or cancel a payment instruction.

B Newly added instruments with certain contract terms that can alter cash flows (such as instruments with features related to achieving environmental, social, and governance (ESG) objectives) should disclose: a qualitative description of the contingent nature; Quantitative information regarding the range of potential changes in contractual cash flows arising from such contractual terms; and the aggregate carrying amount of financial assets and

the amortized cost of financial liabilities under such contractual terms.

- C Clarify the recognition and derecognition dates for certain financial assets and liabilities. Add that when using an electronic payment system to settle a financial liability (or part thereof) in cash, an entity may recognize the financial liability as extinguished before the settlement date only when the entity initiates a payment instruction that results in the following conditions:
- (A) The entity lacks the ability to revoke, stop, or cancel the payment instruction;
 - (B) The entity lacks the practical ability to obtain cash for settlement due to the payment instruction;
 - (C) Settlement risks associated with the electronic payment system are not significant.
- D Equity instruments designated irrevocably as measured at fair value through other comprehensive income (FVTOCI) shall disclose their fair value by category and are no longer required to disclose fair value information by underlying asset. Additionally, the amount of fair value gains or losses recognized in other comprehensive income during the reporting period shall be disclosed, separately presenting the fair value gains or losses related to investments derecognized during the reporting period and those related to investments still held at the end of the reporting period; as well as the cumulative gains or losses transferred to equity during the reporting period due to the derecognition of investments.

(2) Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”

This amendment describes separately the contracts where the enterprise is involved in generating electricity on the basis that the source of generation depends on uncontrollable natural conditions (e.g. weather) as follows:

- A. Clarify the application of requirements regarding “self-use” by enterprises for their contracts for purchasing or sale of natural electricity:

When a contract obligates an enterprise to purchase and receive electricity at the time of generation and the design and operation of the contracted electricity trading market requires the enterprise to sell any amount of unused electricity within a specified period of time, the enterprise shall take into account reasonable and supported information about its past, current, and expected future electricity transactions within a reasonable period of time not to exceed twelve months. An enterprise becomes a net purchaser of

electricity when it purchases sufficient electricity to offset any unused power sold in the same market in which it sells electricity. Contracts involving natural electricity for self-consumption are required by the new amendments to be disclosed:

- (A) The risk that the enterprise may face changes in base electricity and that the enterprise may be required to purchase electricity during delivery intervals when electricity is unavailable,
- (B) Unrecognized contractual commitments, including the expected future cash flows from electricity purchases under these contracts, and
- (C) The impact of the contracts on the financial performance of the enterprise during the reporting period.

B Determine how the designation of contracts involving natural electricity as hedging instruments enables the application of hedge accounting:

Hedged item may be designated as a projected electricity transaction for a variable notional amount that corresponds to the variable amount of natural electricity expected to be delivered by the generation facility referred to in the hedging instrument. Also when the cash flow enterprise of the hedging instrument is in a cash flow hedging relationship, when the designation of a contract involving natural electricity as a hedging instrument is conditional on the occurrence of a specified forecasted transaction, it is presumed to be highly probable that the forecasted transaction will occur.

For companies that designate contracts involving natural electricity as hedging instruments, the terms and conditions shall be disclosed by risk category in accordance with IFRS 7.

(3) IFRS 17 “Insurance Contracts”

IFRS 17 Insurance Contracts replaces IFRS 4 and establishes principles for the recognition, measurement, presentation, and disclosure of insurance contracts issued by an entity. This Standard applies to insurance contracts issued by an entity (including reinsurance contracts), reinsurance contracts held by an entity, and investment contracts with discretionary participation features issued by an entity, provided that the entity also issues insurance contracts. Embedded derivatives, separable investment components, and separable performance obligations shall be separated from the insurance contract. Upon initial recognition, an entity shall classify its portfolio of insurance contracts issued into three groups: loss-making, not significantly at risk of becoming loss-making, and the residual contract group. IFRS 17 requires the current

measurement model to remeasure these estimates at each reporting period. Measurement is based on discounted and probability-weighted cash flows from the contract, risk adjustments, and an element representing the contract's unearned profit (contract service margin). An entity may apply a simplified measurement method (premium allocation method) to some insurance contracts. The entity recognizes income from insurance contract groups over the period it provides insurance coverage and when it is released from risk. If an insurance contract portfolio incurs a loss, the enterprise shall recognize the loss immediately. The enterprise shall separately report insurance revenue, insurance service fees, and insurance financial gains and expenses, and must disclose information regarding amounts, judgments, and risks arising from insurance contracts.

(4) Amendments to IFRS 17 “Insurance Contracts”

This amendment includes adjustments to the deferred effective date, the expected recovery of cash flows from insurance, the contract service margin attributable to investment services, the recovery of losses from held reinsurance contracts, and other items. These amendments do not alter the fundamental principles of the standard.

(5) Amendments to IFRS 17: “First-time Adoption of IFRS 17 and IFRS 9 — Comparative Information”

This amendment permits entities, upon initial adoption of IFRS 17, to elect to apply the classification overlay method to each comparative period presented. This election allows entities to classify all financial assets, including those held in activities not linked to contracts within the scope of IFRS 17, on an instrument-by-instrument basis during comparative periods, based on their expected classification at the time of initial adoption of IFRS 9. Entities that have already adopted IFRS 9, or that will adopt both IFRS 9 and IFRS 17 for the first time, may elect to apply the classification overlay method.

(6) Annual Improvements to IFRS Accounting Standards—Volume 11

A. Hedge accounting by a first-time adopter (Amendments to IFRS 1)

Amend IFRS 1 paragraph B5 and B6 to be consistent with IFRS 9. Add cross-references to improve the accessibility and understandability of IFRS Accounting Standards.

B. Gain or loss on derecognition (Amendments to IFRS 7)

Amend IFRS 7 paragraph B38 to update obsolete cross-references.

C. Introduction (Amendments to guidance on implementing IFRS 7)

Amend IFRS 7 paragraph IG1 to add a statement clarifying that the guidance does not illustrate all the requirements in IFRS 7.

D. Credit risk disclosures (Amendments to guidance on implementing IFRS 7)

Amend IFRS 7 paragraph IG20B to simplify its wording.

E Disclosure of deferred difference between fair value and transaction price (Amendments to guidance on implementing IFRS 7)

Amend IFRS 7 paragraph IG14 to improve its consistency with paragraph 28 of IFRS 7.

F. Derecognition of lease liabilities (Amendments to IFRS 9)

Amend IFRS 9 paragraph 2.1(b) (ii) to add a cross-reference to paragraph 3.3.3 of that Standard and to resolve potential confusion for a lessee applying the derecognition requirements in the Standard.

G. Transaction price (Amendments to IFRS 9)

Amend IFRS 9 paragraph 5.1.3 and Appendix A to clarify the use of the term “transaction price” in the Standard.

H. Determination of a “de facto agent” (Amendments to IFRS 10)

Amend IFRS 10 paragraph B73 and B74 to remove an inconsistency in the application of standard requirements when determining a de facto agent.

I. Cost method (Amendments to IFRS 7)

Replace the term “cost method” with “at cost”.

Based on the Group’s assessment, the application of the New IFRSs above will not have significant impact on the Group’s financial position or financial performance.

3.3 The impact of IFRSs issued by IASB but not yet endorsed and issued into effect by FSC:

New standards, interpretations and amendments issued by IASB but not endorsed by the FSC are as follows:

Newly Issued/Amended/Revised Standards and Interpretations	Effective Date Announced by IASB
Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”	Pending for IASB decision
IFRS 18 "Presentation and Disclosure in Financial Statements"	January 1, 2027 (Note)
IFRS 19 “Subsidiaries without Public Accountability: Disclosures”	January 1, 2027
Amendments to IAS 21 “Translation to a Hyperinflationary Presentation Currency”	January 1, 2027

Note: In the press release dated September 25, 2025, the FSC announced that publicly listed companies will adopt IFRS 18 starting in fiscal year 2028. Additionally,

enterprises requiring early adoption of IFRS 18 may choose to implement the standard ahead of schedule once the FSC has approved IFRS 18.

Except for the following, based on the Group's assessment, the application of the New IFRSs above will not have significant impact on the Group's financial position or financial performance.

(1) Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"

This amendment resolves an inconsistency between existing IFRS 10 and IAS 28. Depending on the nature of the assets sold (invested), an investor who sells (invests) an asset to an associate or a joint venture may recognize all or part of the gain or loss on disposal:

- A. All gains or losses on disposals are recognized when the assets sold (invested) qualify as "business";
- B. When the assets sold (invested) do not qualify as "business", only a portion of the gain or loss on disposal with unaffiliated investors within the scope of their interests in related parties or joint ventures can be recognized.

(2) IFRS 18 "Presentation and Disclosure in Financial Statements"

IFRS 18 "Presentation and Disclosure in Financial Statements" replaces IAS 1 and updates the structure of consolidated income statements, adds disclosure of management performance measures, and strengthens the principles of aggregation and breakdowns applied to the primary financial statements and notes.

(3) IFRS 19 "Subsidiaries without Public Accountability: Disclosures"

This standard allows qualified subsidiaries to apply IFRS accounting standards that reduce disclosure requirements.

(4) Amendments to IAS 21 "Translation to a Hyperinflationary Presentation Currency"

This amendment adds that when translating from a functional currency of a non-hyperinflationary economy to a presentation currency of a hyperinflationary economy, all amounts (including comparative amounts) must be translated using the closing exchange rate on the most recent financial statement date. This amendment also includes an exception: for entities whose functional currency and presentation currency are both currencies of a hyperinflationary economy, and whose foreign operations are in functional currencies of non-hyperinflationary economies, comparative amounts need not be retranslated. It further requires disclosure of consolidated financial information, including the translation method and the foreign operations to which that method applies.

As of the date of issuance of these consolidated financial statements, the Group is continuously evaluating the impact of the above standards and interpretations on the Group's financial position and financial performance, and the related impact will be disclosed when the evaluation is completed.

4. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented unless otherwise stated.

4.1 Statement of Compliance

The accompanying consolidated financial statements have been prepared in conformity with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs.

4.2 Basis of Preparation

(1) Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:

- A. Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss (“FVTPL”).
- B. Financial assets measured at fair value through other comprehensive income (“FVTOCI”).
- C. Liabilities on cash-settled share-based payment arrangements measured at fair value.
- D. Defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation.

(2) The preparation of financial statements in conformity with the IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

4.3 Basis of Consolidation

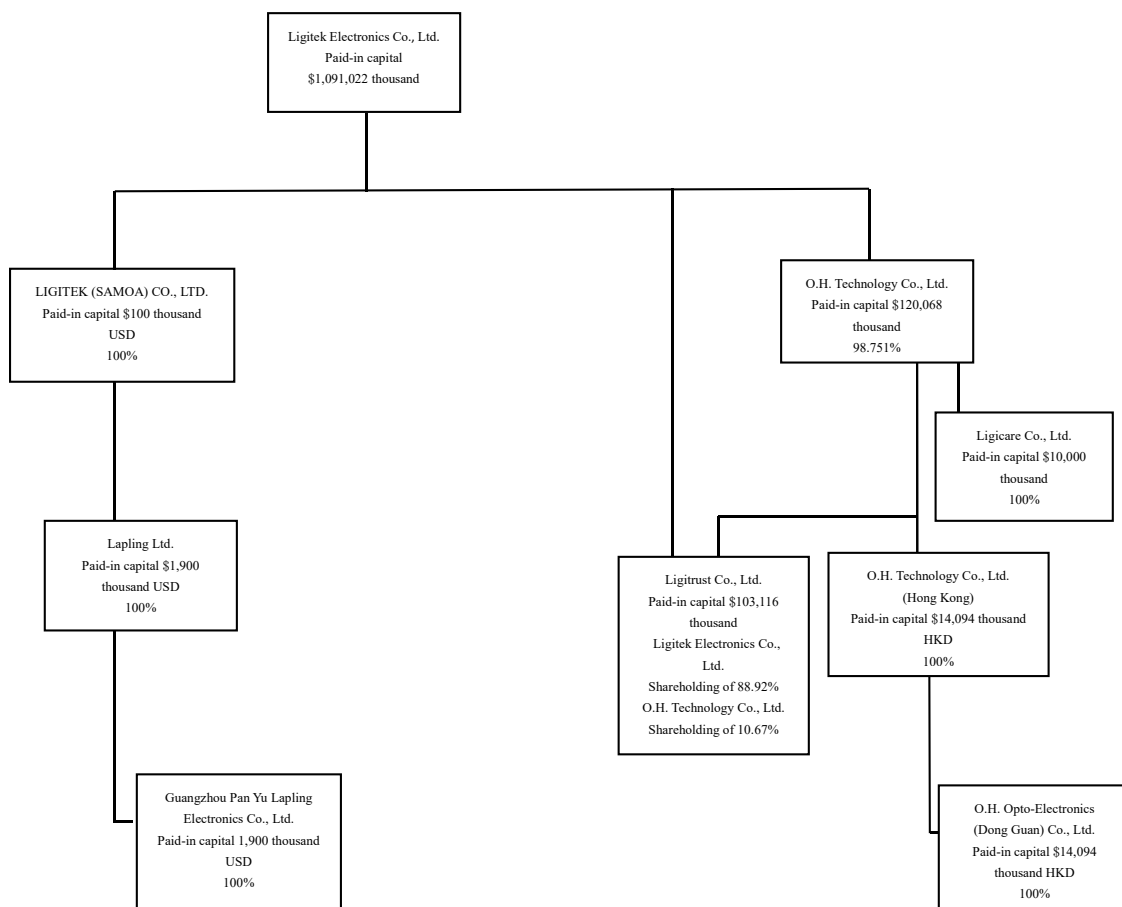

(1) The basis for the consolidated financial statements:

- A. All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those

returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.

- B. Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- C. Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- D. Changes in a parent's ownership interest in a subsidiary that do not result in the parent losing control of the subsidiary (transactions with non-controlling interests) are accounted for as equity transactions, i.e., transactions with owners in their capacity as owners. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity.
- E. When the Group loses control of a subsidiary, the Group remeasures any investment retained in the former subsidiary at its fair value. That fair value is regarded as the fair value on initial recognition of a financial asset or the cost on initial recognition of the associate or joint venture. Any difference between fair value and carrying amount is recognized in profit or loss. All amounts previously recognized in other comprehensive income in relation to the subsidiary are reclassified to profit or loss or transferred directly to retained earnings as appropriate, on the same basis as would be required if the related assets or liabilities were disposed of. That is, when the Group loses control of a subsidiary, all gains or losses previously recognized in other comprehensive income in relation to the subsidiary should be reclassified from equity to profit or loss, if such gains or losses would be reclassified to profit or loss when the related assets or liabilities are disposed of.

(2) Investment relationship and shareholding ratio between the Company and its subsidiaries as of December 31, 2025 are as follows:

(3) Subsidiaries included in the consolidated financial statements:

Investor/Subsidiaries		Main Business	Percentage of Ownership	
			2025.12.31	2024.12.31
Ligitek Electronics Co., Ltd.	Ligitek (Samoa) Co., Ltd.	Holding business	100%	100%
Ligitek (Samoa) Co., Ltd.	Lapling Ltd.	Holding business	100%	100%
Lapling Ltd.	Guangzhou Pan Yu Lapling Electronics Co., Ltd.	Production and sale of various electronic components (LED & monitors)	100%	100%
Ligitek Electronics Co., Ltd.	O.H. Technology Co., Ltd.	Conducts research and development, manufacture, processing, and trading of various electronic components, printed circuit board and LED monitors	98.751%	98.751%
O.H. Technology Co., Ltd.	O.H. Technology Co., Ltd. (Hong Kong)	Holding business	100%	100%
O.H. Technology Co., Ltd. (Hong Kong)	O.H. Opto-Electronics (Dong Guan) Co., Ltd.	Production and sale of flat-panel display and electronic components	100%	100%
Ligitek Electronics Co., Ltd.	Ligitrust Co., Ltd.	Engaged in leasing business, piping work, electrical appliances installation, etc.	88.92%	88.92%
Ligitrust Co., Ltd.	LiMart Intelligent Retail Co., Ltd.	Retail sale of food, groceries and beverages, others	-	-
				(Note2)
O.H. Technology Co., Ltd.	Ligitrust Co., Ltd.	Engaged in leasing business, piping work, electrical appliances installation, etc.	10.67%	10.67%
O.H. Technology Co., Ltd.	Ligicare Co., Ltd.	Production and sale of various medical equipment	100%	100%
Ligitek Electronics Co., Ltd.	Ligitek Electronics (Thailand), Ltd.	Manufacturing, processing, and trading of various electronic components, lighting equipment, batteries, and other electronic and mechanical equipment.	100%	-
			(Note 1)	

Note 1. Ligitek Electronics (Thailand), Ltd. was established on April 11, 2024. Subsequently, in response to international circumstances and considerations of operational synergies, the Board of Directors resolved on May 13, 2025, to dissolve the company effective May 31, 2025. As of December 31, 2025, the liquidation process has been completed.

Note 2. Ligitrust Co., Ltd. has sold 2,111,250 shares of LiMart Intelligent Retail Co., Ltd. on December 16, 2024, resulting in a decrease in its equity interest to 10%. Accordingly, the investment has been reclassified to financial assets measured at FVTOCI-noncurrent. Therefore, LiMart Intelligent Retail Co., Ltd. is no longer included as a component entity in the consolidated financial statements since December 16, 2024.

All of the financial statements of above consolidated component subsidiaries have been audited.

A. Changes in the consolidation subsidiaries:

(A) Ligitek Electronics (Thailand), Ltd. was added since April 11, 2024.

(B) LiMart Intelligent Retail Co., Ltd. was excluded since December 16, 2024.

(C) Ligitek Electronics (Thailand), Ltd. was excluded since May 31, 2025.

B. Subsidiaries not included in the consolidated financial statements:

Investing company	Subsidiary	December 31,	December 31,	Description
		2025	2024	
		Percentage of shares held	Percentage of shares held	
Ligitek Electronics Co., Ltd.	Ligitek Electronics (Thailand), Ltd.	-	100%	The company was dissolved on May 31, 2025, and therefore was not included in the consolidated financial statements. As of December 31, 2025, the liquidation process has been completed.

C. Adjustments for subsidiaries with different balance sheet dates: None.

D. Significant restrictions :

As of December 31, 2025 and 2024, the cash and bank deposits in Mainland China (including financial products recorded as financial assets at FVTPL) totaled \$58,917 thousand and \$37,912 thousand, respectively, are under local foreign exchange controls which restrict the capital to be remitted outside the borders (except for normal dividend distribution).

E. The parent company's securities held by subsidiaries: None.

F. Information on subsidiaries with material non-controlling interests:

After assessment, the Group does not have subsidiary with material non-controlling interest.

4.4 Foreign Exchange

- (1) Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars (NT\$), which is the Company's functional currency.
- (2) In preparing the financial statements of each individual consolidated entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Such exchange differences are recognized in profit or loss in the year in which they arise. Non-monetary items measured at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Exchange differences arising on the retranslation of non-monetary items are included

in profit or loss for the year except for exchange differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which case, the exchange differences are also recognized directly in other comprehensive income. Non-monetary items that are measured in terms of historical cost in foreign currencies are not retranslated.

- (3) For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into NT\$ using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and accumulated in equity (attributed to non-controlling interests as appropriate).

4.5 Classification of Current and Noncurrent Assets and Liabilities

- (1) Assets that meet one of the following criteria are classified as current assets:

- A. Assets arising from operating activities that are expected to be realized, or are intended to be sold or consumed within the normal operating cycle;
- B. Assets held mainly for trading purposes;
- C. Assets that are expected to be realized within twelve months from the balance sheet date; or
- D. Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

Assets that do not meet the above criteria are classified as noncurrent.

- (2) Liabilities that meet one of the following criteria are classified as current liabilities:

- A. Liabilities that are expected to be paid off within the normal operating cycle;
- B. Liabilities arising mainly from trading activities;
- C. Liabilities that are to be paid off within twelve months from the balance sheet date, even if an agreement to refinance, or to reschedule payments on a long-term basis is completed after the reporting period and before the consolidated financial statements are authorized for issue; and
- D. Liabilities for which the Group does not have a substantive right to defer payment until at least twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Liabilities that do not meet the above criteria are classified as noncurrent.

4.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value (including the original maturity of the time deposits within three months.)

4.7 Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially recognized at fair value. On initial recognition, transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than those classified as financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities. Transaction costs that are directly attributable to financial assets and financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

(1) Financial Assets

A. Measurement categories

All regular way purchases or sales of financial assets are recognized and derecognized using trade date accounting.

The types of financial assets held by the Group are financial assets at FVTPL, financial assets at amortized cost and investments in equity instruments at FVTOCI.

(A) Financial assets at FVTPL

Financial assets are classified as at FVTPL when such a financial asset is mandatorily classified or designated as at FVTPL. Financial assets mandatorily classified as at FVTPL include equity investments that are not designated as at FVTOCI and debt investments that do not meet the criteria for being classified as at amortized cost criteria or at FVTOCI.

Financial assets are designated as measured at FVTPL on initial recognition if the designation eliminates or significantly reduces the measurement or recognition inconsistency.

Financial assets measured at FVTPL are initially measured at fair value, with the generated dividends recognized in other income, and interest income and gains or losses arising from remeasurements are recognized in other gains or losses. Please refer to Note 12 for the determination of fair value.

(B) Financial assets at amortized cost

Financial assets that meet both of the following conditions are measured at amortized cost:

- a. The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- b. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss.

Exchange differences are recognized in profit or loss.

Interest income is calculated by applying the effective interest rate to the gross carrying amount of such a financial asset, except for:

- a. Purchased or originated credit-impaired financial assets, for which interest income is calculated by applying the credit-adjusted effective interest rate to the amortized cost of such financial assets.
- b. Financial assets that are not credit-impaired on purchase or origination but have subsequently become credit-impaired, for which interest income is calculated by applying the effective interest rate to the amortized cost of such financial assets in subsequent reporting periods.

(C) Debt investments measured at FVTOCI

If an investment in debt instruments meets both of the following conditions, it is classified as a financial asset measured at FVTOCI:

- a. The debt instrument is held within a business model whose objective is achieved by both collecting of contractual cash flows and selling of such financial assets; and
- b. The contractual terms of the debt instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instrument investments measured at fair value through other comprehensive income are measured at fair value. Changes in the carrying amount attributable to interest income calculated using the effective interest method, foreign exchange gains or losses, and impairment losses or reversals are recognized in profit or loss, while other changes are recognized in other comprehensive income and reclassified to profit or

loss upon disposal of the investment.

(D) Investments in equity instruments measured at FVTOCI

Upon initial recognition, the Group has an irrevocable election to designate investments in equity instruments that are not held for trading and for which there is contingent consideration recognized by the acquirer of the non-business combination to be measured at FVTOCI.

Investments in equity instruments measured at FVTOCI are measured at fair value with subsequent changes in fair value reported in other comprehensive income and accumulated in other equity. When an investment is disposed of, the accumulated gain or loss is transferred directly to retained earnings and is not reclassified to profit or loss.

Dividends on investments in equity instruments measured at FVTOCI are recognized in profit or loss when the Group's right to receive payments is established, unless the dividend clearly represents a partial recovery of the cost of the investment.

B. Impairment of financial assets

(A) The Group recognizes loss allowances for expected credit losses on financial assets at amortized cost (including accounts receivable), debt investments measured at FVTOCI, lease receivables, and contract assets.

(B) The Group recognizes loss allowances at an amount equal to lifetime expected credit losses (i.e., ECLs) for accounts receivable, contract assets, and lease receivables. For all other financial instruments, the Group recognizes lifetime ECLs for which there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

(C) Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

(D) The Group recognizes impairment losses in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount

through a loss allowance account, except for debt investments that are measured at FVTOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of such a financial asset.

C. Derecognition of financial assets

The Group derecognizes a financial asset when one of the following conditions is met:

- (A) The contractual rights to receive cash flows from the financial asset expire.
- (B) The contractual rights to receive cash flows from the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.
- (C) The Group neither retains nor transfers substantially all risks and rewards of ownership of the financial asset; however, it does not retained control of the financial asset.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of a debt investment measured at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss which had been recognized in other comprehensive income is recognized in profit or loss. However, on derecognition of an equity investment at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss, and the cumulative gain or loss which had been recognized in other comprehensive income is transferred directly to retained earnings, without being reclassified to profit or loss.

(2) Equity Instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the proceeds received, net of direct issue costs.

(3) Financial Liabilities

A. Subsequent measurement

Except for the following situations, all financial liabilities are measured at

amortized cost using the effective interest method:

- (A) Financial liabilities at fair value through profit or loss are financial liabilities held for trading or financial liabilities designated as at fair value through profit or loss on initial recognition. A financial liability is classified as held for trading if it is incurred principally for the purpose of repurchasing it in the near term. Derivatives are also categorized as financial liabilities held for trading unless they are financial guarantee contracts or designated and effective hedging derivatives. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss on initial recognition:
 - a. They are hybrid (combined) contracts; or
 - b. They eliminate or significantly reduce a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases; or
 - c. They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.
- (B) Financial liabilities at fair value through profit or loss are initially recognized at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured at fair value, and any changes in the fair value of these financial liabilities are recognized in profit or loss.
- (C) For a financial liability designated as at FVTPL, the amount of changes in fair value attributable to changes in the credit risk of the liability is presented in other comprehensive income and will not be subsequently reclassified to profit or loss. The remaining amount of changes in the fair value of that liability is presented in profit or loss. If this accounting treatment related to credit risk would create or enlarge an accounting mismatch, all changes in the fair value of the liability are presented in profit or loss.

B. Derecognition of financial liabilities

The Group derecognizes a financial liability when, and only when, it is extinguished—i.e., when the obligation is discharged or cancelled or expires. The difference between the carrying amount of a financial liability derecognized and the consideration paid, including any non-financial assets transferred or liabilities assumed, is recognized in profit or loss.

(4) Modification of Financial Instruments

When the contractual cash flows of a financial instrument are renegotiated or modified and the renegotiation or modification does not result in the derecognition of that financial instrument, the Group recalculates the gross carrying amount of the financial asset or the amortized cost of the financial liabilities using the original effective interest rate and recognizes a modification gain or loss in profit or loss. Any costs or fees incurred adjust the carrying amount of the modified financial instrument and are amortized over the remaining term of the modified financial instrument. If the renegotiation or modification results in that the derecognition of that financial instrument is required, then the financial instrument is derecognized accordingly.

If the basis for determining the contractual cash flows of a financial asset or financial liability changes resulting from interest rate benchmark reform and the change is necessary as a direct consequence of interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis, the Group applies the practical expedient to account for that change as a change in effective interest rate. If changes are made to a financial asset or financial liability in addition to changes to the basis for determining the contractual cash flows required by interest rate benchmark reform, the Group first applies the practical expedient aforementioned to the changes required by interest rate benchmark reform, and then applies the applicable requirements to any additional changes to which that practical expedient does not apply.

4.8 Inventories

Inventories, under a perpetual system, are measured at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item-by-item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

4.9 Investments accounted for using equity method

- (1) Associates are all entities over which the Group has significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly, 20% or more of the voting power of the investee. Investments in associates are initially recognized at cost and are accounted for using the equity method.
- (2) The Group's share of its associate's profit or loss after the date of acquisition is

recognized in the Group's profit or loss, and its share of changes in the associate's other comprehensive income is recognized in the Group's other comprehensive income. When the Group's share of losses of its associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group discontinues recognizing its share of further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

- (3) Unrealized gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- (4) In the case that an associate issues new shares and the Group does not subscribe or acquire new shares proportionately, which results in a change in the Group's ownership percentage of the associate but maintains significant influence on the associate, then 'capital surplus' and 'investments accounted for using the equity method' shall be adjusted for the increase or decrease of its share of equity interest. If the above condition causes a decrease in the Group's ownership percentage of the associate, in addition to the above adjustment, the amounts previously recognized in other comprehensive income in relation to the associate are reclassified to profit or loss proportionately on the same basis as would be required if the relevant assets or liabilities were disposed of.
- (5) Upon loss of significant influence over an associate, the Group remeasures any retained investment in the former associate at its fair value. Any difference between the fair value and carrying amount is recognized in profit or loss.
- (6) When the Group disposes its investment in an associate, if it loses significant influence over the associate, the Group shall account for all amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associate had directly disposed of the related assets or liabilities. If the it still retains significant influence over the associate, then the Group shall reclassify to profit or loss the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.
- (7) When the Group disposes its investment in an associate, if it loses significant influence over the associate, the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss. If it still retains significant

influence over the associate, then the amounts previously recognized as capital surplus in relation to the associate are transferred to profit or loss proportionately.

4.10 Property, Plant and Equipment

- (1) Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized. For property, plant and equipment under construction, sample produced from testing whether the asset is functioning properly before its intended use are measured at lower of the costs or net realizable value. Proceeds from selling such an item and the cost of the item are recognized in profit or loss.
- (2) Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repair and maintenance is recognized in profit or loss as incurred.
- (3) Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each end of reporting year. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

Buildings	20 ~ 50 years
Machinery	5 ~ 10 years
Transportation equipment	5 ~ 10 years
Miscellaneous equipment	2 ~ 10 years

- (4) An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

4.11 Leases

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease. For a contract that contains a lease component and non-lease components, the

Group allocates the consideration in the contract to each component on the basis of the relative stand-alone price and accounts for each component separately.

(1) The Group as a lessee

Except for short-term leases and leases of low-value asset where lease payments are recognized as expenses on a straight-line basis over the lease terms, the Group recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease.

Right-of-use assets

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, less any lease incentives received, and plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets. Right-of-use assets are subsequently measured at cost less accumulated depreciation and accumulated impairment losses and adjusted for any remeasurement of the lease liabilities.

Right-of-use assets are presented as a separate line item in the consolidated balance sheets, except for those that meet the definition of investment properties.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms. However, if leases transfer ownership of the underlying assets to the Group by the end of the lease terms or if the costs of right-of-use assets reflect that the Group will exercise a purchase option, the Group depreciates the right-of-use assets from the commencement dates to the end of the useful lives of the underlying assets.

Lease liabilities

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, in-substance fixed payments, variable lease payments that depend on an index or a rate, residual value guarantees, the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and payments of penalties for terminating a lease if the lease term reflects such termination, less any lease incentives receivable. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is

a change in a lease term, a change in the assessment of an option to purchase an underlying asset, a change in the amounts expected to be payable under a residual value guarantee, or a change in future lease payments resulting from a change in an index or a rate used to determine those payments, the Group remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. For a lease modification that is not accounted for as a separate lease, the Group accounts for the remeasurement of the lease liability by (a) decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease. The lessee shall recognize in profit or loss any gain or loss relating to the partial or full termination of the lease and (b) making a corresponding adjustment to the right-of-use asset for all other lease modifications. Lease liabilities are presented as a separate line item in the consolidated balance sheets.

The Group negotiated with the lessors for rent concessions as a direct consequence of the covid-19 pandemic and adjusted lease payments originally due on or before 30 June 2022 to be less than, or substantially the same as the payments for the lease immediately preceding the change. There is no substantive change to other terms and conditions of the lease. The Group elected to apply the practical expedient to all of rent concessions met the conditions aforementioned. That is, the Group did not assess whether the change would result in a lease modification. Instead, the Group reduced lease liabilities and recognized the corresponding rent reduction in profit or loss as other income when the event or condition that triggers those reductions occurs.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

(2) The Group as a lessor

Leases are classified as finance leases whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

When a lease includes both land and buildings elements, the Group assesses the classification of each element as a finance lease or an operating lease separately allocating lease payments (including any lump-sum upfront payments) between the land and the buildings elements in proportion to the relative fair values of the leasehold interests in the land element and buildings element of the lease at the inception date. If the lease payments cannot be allocated reliably between these two elements, the entire lease is classified as a finance lease, unless it is clear that both

elements are operating leases, in which case the entire lease is classified as an operating lease.

4.12 Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes) and include land held for a currently undetermined future use. Investment properties also included right-of-use assets that meet the definition of investment property.

Owned investment properties are initially measured at cost, including transaction costs, and subsequently measured at cost less accumulated depreciation and accumulated impairment loss.

All investment properties are depreciated using the straight-line method.

Investment properties under construction are stated at cost less accumulated impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Depreciation of these assets commences when the assets are ready for their intended use. On derecognition of an investment property, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss.

4.13 Intangible assets

Separately acquired intangible assets with finite useful lives are measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis over the estimated lives as follows: Computer software, 2 to 5 years; Trademarks and patents, the period of contractual rights or the future economic benefits flowing to the Group. The estimated useful life and amortization method for an intangible asset are reviewed at each financial year-end. Any changes in estimates is accounted for on a prospective basis.

Goodwill and intangible assets with indefinite useful lives are not amortized, but are tested annually for impairment.

An intangible asset is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising from the disposal of the assets is determined as the difference between the disposal proceeds and the carrying amount of the asset and is recognized in profit or loss.

4.14 Impairment of non-financial assets

The Group assesses at the end of reporting period the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use.

Regarding goodwill, intangible assets with indefinite useful lives and intangible assets not yet available for use, their recoverable amounts should be estimated periodically. When the indication of impairment loss recognized in prior years for an asset other than goodwill no longer exists, the impairment loss is reversed to the extent of the loss previously recognized in profit or loss.

4.15 Provisions

Provisions (including warranties, decommissioning liabilities, restructuring, onerous contracts, and contingent liabilities arising from merger and acquisition transactions) are recognized when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date. The discount rate (or rates) shall be a pre-tax rate (or rates) that reflect(s) current market assessments of the time value of money and the risks specific to the liability with amortization of discount recognized as interest expense. Provisions are not recognized for future operating losses.

Carbon fees levied under the Climate Change Response Act and its subsidiary regulations are not subject to IFRS Interpretation 21 “Levies,” but are instead recognized and measured in accordance with IAS 37 “Provisions, Contingent Liabilities and Contingent Assets.” If it is highly probable that estimated annual emissions will exceed the threshold for triggering the levy, a related liability for carbon fees should be estimated and recognized in interim financial reports based on the proportion of emissions incurred relative to estimated annual emissions.

4.16 Employees benefits

(1) Short-term employees benefits Short-term employees benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognized as expenses in that period when the employees render service.

(2) Pension

A. Defined contribution plan

For the defined contribution plan, the contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund from the plan or a reduction in future contributions to the plan.

B. Defined benefit plan

- (A) Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current or prior period(s). The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is estimated annually by independent actuaries using the projected unit credit method. The discount rate used is determined by using the market yields (at the end of the reporting period) on government bonds denominated in the currency in which the benefits are to be paid. The currency and term of the government bonds are consistent with the currency and estimated term of the obligation.
- (B) Remeasurements of defined benefit plans are recognized in other comprehensive income as incurred and are recorded as retained earnings.
- (C) Past-service costs are recognized immediately in profit or loss.

(3) Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal or constructive obligations and those amounts can be reliably estimated. Any difference between the amount accrued and the amount actually distributed is accounted for a change in accounting estimate.

(4) Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of an employee's employment as a result of either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of benefits in exchange for the termination of employment. The Group recognizes expense when it can no longer withdraw an offer of termination benefits or when it recognizes related restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date are discounted to their present value.

4.17 Share capital and treasury shares

(1) Share capital

Ordinary shares are classified as equity. The classification of preferred stocks is based on the special rights entitled to preference shares based on the substance of the contract and the definition of financial liabilities and equity instruments. If preferred stocks meet the definition of a financial liability, they are classified as liabilities;

otherwise, they are classified as equity.

Incremental costs directly attributable to the issue of new shares or stock options are recognized in equity as a deduction from the proceeds.

(2) Treasury Shares

The Group's treasury shares that have not been disposed or retired are stated at cost and shown as a deduction in stockholders' equity. When treasury shares are sold, if the selling price is above the book value, the difference is credited to the capital surplus—treasury share transactions; if the selling price is below the book value, the difference is first offset against capital surplus from the same class of treasury share transactions, and the remainder, if any, is then debited to retained earnings. The carrying value of treasury shares is calculated using the weighted-average approach in accordance with the purpose of repurchase.

Upon retirement, treasury shares are derecognized against the capital surplus - premium on stocks and capital stock proportionately according to the ratio of shares retired. The carrying value of treasury shares in excess of the sum of the par value and premium on stocks is first offset against capital surplus from the same class of treasury share transactions, and the remainder, if any, is then debited to retained earnings. The sum of the par value and premium on treasury shares in excess of the carrying value is credited to capital surplus from the same class of treasury share transactions.

4.18 Share-based payment transactions

- (1) For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. And ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.
- (2) For the cash-settled share-based payment arrangements, the employee services received and the liability incurred are measured at the fair value of the liability to pay for those services, and are recognized as compensation cost and liability over the vesting period. The fair value of the liability shall be remeasured at each balance sheet

date until settled at the settlement date, with any changes in fair value recognized in profit or loss.

4.19 Income tax

- (1) The tax expense for the period comprises current and deferred income tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- (2) The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax calculated in accordance with Income Tax Act of the Republic of China is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders approve to retain earnings.
- (3) Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit (tax loss), or doesn't give rise to equal taxable and deductible temporary differences. Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- (4) Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- (5) Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized

amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

- (6) Tax preference resulted from acquisitions of equipment of technology, research and development expenditures, educations and trainings and equity investments should recognized as tax credit while applying accounting policies.

4.20 Revenue Recognition

The Group applies the following steps for revenue recognition:

- (1) Identifying the contract;
- (2) Identifying performance obligations;
- (3) Determine the transaction price;
- (4) Allocating the transaction price to performance obligations; and
- (5) Recognizing revenue when (or as) a performance obligation is satisfied.

The Group identifies performance obligations in a contract with the customer, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

For contracts where the period between the date on which the Group transfers a promised good or service to a customer and the date on which the customer pays for that good or service is within one year, the Group does not adjust the promised amount of consideration for the effect of a significant financing component.

A. Revenue from the sale of goods

The Group recognizes revenue when control of a product is transferred to a customer. Transfer of control of the product means that the product has been delivered to the customer and there are no outstanding obligations that would affect the customer's acceptance of the product. Delivery is the point at which the customer has accepted the product in accordance with the terms of the transaction, the risk of obsolescence and loss has been transferred to the customer, and the Group has objective evidence that all acceptance conditions have been met.

The Group records accounts receivable upon delivery of goods because the consolidated companies has the unconditional right to receive the consideration at that point in time.

B. Provision of services

The services provided by the Group are mainly contracted works from customers

and revenue is recognized when the promised services are transferred to the customer (i.e., when the customer obtains control of the asset) and there is no subsequent obligation.

4.21 Operating segments

An operating segment is a component unit of an enterprise that engages in operating activities that may generate revenues and expenses, including revenues and expenses from transactions with other components of the enterprise. The operating results of an operating segment are reviewed regularly by the enterprise's operating decision maker to make decisions about the allocation of resources to the segment, to evaluate the performance of the segment, and to have separate financial information.

4.22 Government grants

Government grants are recognized at their fair value only when there is reasonable assurance that the Group will comply with any conditions attached to the grants and the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes expenses for the related costs for which the grants are intended to compensate.

A government grant that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs is recognized in profit or loss of the period in which it becomes receivable.

5. Critical Accounting Judgments and Major Sources of Estimation and Assumption Uncertainty

The Group takes into account the economic impact of the covid-19 pandemic / changes in climates and related governmental policies and regulations / the conflicts between Ukraine and Russia as well as related international sanctions / inflation and volatility in interest rate on significant accounting estimates and reviews the basic assumptions and estimation on an ongoing basis. If a change in accounting estimate affects only the current period, the effect is recognized in the current period. If a change in accounting estimate affects both current and future periods, the effects are recognized in both periods.

In the preparation of the consolidated financial statements, the critical accounting judgments the Group has made and the major sources of estimation and assumption uncertainty are described as follows:

5.1 Critical judgements in applying accounting policies

(1) Business model assessment for financial assets

The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment involves judgment and consideration of all relevant evidence, such as how the performance of the assets is evaluated, the risks that affect the performance of the assets, and how the managers of the assets are compensated. The Group constantly assess the adequacy of its business model and monitors financial assets measured at amortized cost and debt investments measure at fair value through other comprehensive income. When these assets are derecognized prior to their maturity, the Group reviews the reasons for their disposal and whether the reasons are consistent with the objective of the business for which the assets were held. If the objective of the business for an asset is changed, the classification of the asset is prospectively changed accordingly.

(2) Revenue recognition

- A. The Group assesses if it controls the specified good or service before that good or service is transferred to a customer to determine whether it is acting as a principal or as an agent in the transaction in accordance with IFRS 15. Where the Group acts as an agent, revenue is recognized on a net basis.

When another party is involved in providing goods or services to a customer, the Group is a principal if the group obtains control of any one of the following:

- (A) Before a commodity or other asset is transferred to a customer, the Group obtains control of the commodity or asset from another party.
 - (B) A right to a service to be performed by the other party, which gives the Group the ability to direct that party to provide the service to the customer on the Group's behalf.
 - (C) A commodity or service from the other party that it then combines with other goods or services in providing the specified good or service to the customer.
- B. Indicators that the Group controls the specified good or service before it is transferred to the customer include, but are not limited to, the following:
- (A) The entity is primarily responsible for fulfilling the promise to provide the specified good or service.
 - (B) The entity has inventory risk before or after the specified good or service has been transferred to a customer.
 - (C) The entity has discretion in establishing the price for the specified good or service.

(3) Lease terms

In determining a lease term, the Group considers all facts and circumstances that

create an economic incentive to exercise or not to exercise an option, including any expected changes in facts and circumstances from the commencement date until the exercise date of the option. Main factors considered include contractual terms and conditions for the optional periods, significant leasehold improvements undertaken (or expected to be undertaken) over the contract term, the importance of the underlying asset to the lessee's operations, etc. The lease term is reassessed if a significant change in circumstances that are within control of the Group occurs.

5.2 Critical accounting estimates and assumptions

(1) Revenue Recognition

Sales revenue, excluding related estimated sales returns, discounts and other similar allowance, is recognized when the control of goods or services is transferred to the customer and the Group satisfies its performance obligation. The Group estimates sales returns and allowance based on historical experience and other known factors. The Group reassesses the reasonableness of the estimates periodically.

(2) Estimated impairment of financial assets

The provision for impairment of accounts receivables, debt investments, and financial guarantee contracts is based on assumptions on risk of default and expected loss rates. The Group makes these assumptions and selects inputs for impairment calculation based on the Group's historical experience and existing market conditions, as well as forward looking information. Where the actual future cash inflows are less than expected, a material impairment loss may arise.

(3) Fair value measurements and valuation processes

Where some of the Group's assets and liabilities measured at fair value have no quoted prices in active markets, the Group determines, based on relevant regulations and judgment, whether to engage third party qualified valuers and the appropriate valuation techniques for the fair value measurements. Where Level 1 inputs are not available, the Group determines appropriate inputs by referring to the analyses of the financial position and the operation results of the investees, the most recent transaction prices, prices of the same equity instruments not quoted in active markets, quoted prices of similar instruments in active markets, and valuation multiples of comparable entities. If the actual changes of inputs in the future differ from expectation, the fair value might vary accordingly. The Group updates inputs periodically according to market conditions to monitor the appropriateness of the fair value measurement.

(4) Impairment assessment of tangible and intangible assets

In the course of impairment assessments, the Group determines, based on how assets

are utilized and relevant industrial characteristics, the useful lives of assets and the future cash flows of a specific group of the assets. Changes in economic circumstances or the Group's strategy might result in material impairment of assets in the future.

(5) Impairment assessment of investments accounted for using the equity method

The Group assesses the impairment of an investment accounted for using the equity method once there is any indication that it might have been impaired and its carrying amount cannot be recoverable. The Group assesses the recoverable amounts of an investment accounted for using the equity method based on the present value of the Group's share of expected future cash flows of the investee or the present value of expected cash dividends receivable from the investee and expected future cash flows from disposal of the investment, analyzing the reasonableness of related assumptions.

(6) Realizability of deferred income tax assets

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the deferred income tax asset can be utilized. The Group's management assesses the realizability of deferred income tax assets by making critical accounting judgements and significant estimates of expected future revenue growth rate and gross profit rate, the tax exemption period, available tax credits, and tax planning, etc. Changes in global economic environment, industrial environment, and laws and regulations might result in material adjustments to deferred income tax assets.

(7) Valuation of inventories

As inventories are stated at the lower of cost and net realizable value; thus, the Group estimates the net realizable value of inventory for obsolescence and unmarketable items on balance sheet date due to the rapid technology changes and writes down inventories to the net realizable value.

(8) Calculation of accrued pension obligations

When calculating the present value of defined pension obligations, the Group uses judgments and actuarial assumptions to determine related estimates, including discount rates and future salary increase rate. Changes in these assumptions may have a significantly impact on the carrying amount of defined pension obligations.

(9) Lessees' incremental borrowing rates

In determining a lessee's incremental borrowing rate used in discounting lease payments, a risk-free rate for the same currency and relevant duration is selected as a

reference rate, and the lessee's credit spread adjustments and lease specific adjustments (such as asset type, guarantees, etc.) are also taken into account.

6. Description of Significant Accounting Items

6.1 Cash and cash equivalents

Item	December 31, 2025	December 31, 2024
Cash	\$ 623	\$ 800
Check deposits	10	10
Demand deposits and foreign currency deposits	627, 830	455, 837
Time deposits	43, 132	252, 359
Cash equivalents		
Short-term notes with original maturities within three months	-	32, 740
Total	\$ 671, 595	\$ 741, 746

- (1) The Group deposits its cash and cash equivalents at several financial institutions that have high credit quality to diversify its risk. Therefore, the Group considers its cash and cash equivalents to have low credit risk.
- (2) The Group has no cash and cash equivalents pledged to others.
- (3) Cash equivalents as of December 31, 2024 are bonds with repurchase agreements for the period, 2024.12.23 ~ 2025.01.17, with an interest rate of 4.50%.

6.2 Financial instruments at FVTPL – current

	December 31, 2025	December 31, 2024
Financial assets - current		
Financial assets designated as measured at FVTPL		
Domestic and foreign listed (or OTC) stocks	\$ 56, 451	\$ 63, 496
Financial products	12, 801	12, 584
Total	\$ 69, 252	\$ 76, 080

- (1) The Group has no financial assets at FVTPL pledged to others.
- (2) Please refer to Note 12 for information on relevant credit risk management and valuation method.

6.3 Notes receivable, net

Item	December 31, 2025	December 31, 2024
Notes receivable	\$ 1, 490	\$ 1, 598
Less: Loss allowance	(15)	(16)
Notes receivable, net	\$ 1, 475	\$ 1, 582

- (1) As of December 31, 2025 and 2024, none of notes receivable is discounted by the Group.
- (2) As of December 31, 2025 and 2024, none of notes receivable is pledged by the Group.
- (3) For information on loss allowance of notes receivable, please refer to Note 6.4.

6.4 Accounts receivable, net

Item	December 31, 2025	December 31, 2024
Gross carrying amount	\$ 219,178	\$ 330,247
Less: Loss allowance	(17,582)	(17,656)
Accounts receivable, net	\$ 201,596	\$ 312,591

The average credit period of sale of goods ranges from 60 ~ 150 days, which is determined by reference to the credit granting policy based on the counterparties' industrial characteristics, operation scales and profitability.

The Group has no accounts receivable pledged to others.

- (1) Accounts receivable of the Group are measured at amortized cost. As of December 31, 2025 and 2024, none notes receivable is discounted by the Group.
- (2) The Group uses the simplified approach to recognize the loss allowance at an amount equal to lifetime expected credit losses (i.e., ECLs) for notes receivables and accounts receivables. The expected credit losses are calculated based on loss rates estimated by reference to past default experience and the current financial position of the debtor, adjusted for current and forecast economic conditions of the industry in which the debtors operate as well as for external credit rating. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the following provision matrix for loss allowance based on past due status is not further distinguished according to the Group's different customer base. The loss allowances of notes receivable and accounts receivable, including those from notes receivable, accounts receivable, long-term receivables and related parties, are as follows:

December 31, 2025	Expected	Gross carrying amount	Loss allowance	Amortized cost
	credit loss rate		(Lifetime ECLs)	
Not past due	0%–1%	\$ 140,449	\$ 15	\$ 140,434
Past due 31~90 days	3%	36	1	35
Past due 91~180 days	20%	-	-	-
Past due 181~365 days	50%	-	-	-
Past due over 365 days (Note)	100%	81,930	19,328	62,602

December 31, 2024	Expected credit loss rate	Gross carrying amount	Loss allowance (Lifetime ECLs)	Amortized cost
Not past due	0%–1%	\$ 179, 189	\$ 16	\$ 179, 173
Past due 31~90 days	3%	16, 602	-	16, 602
Past due 91~180 days	20%	9, 500	-	9, 500
Past due 181~365 days	50%	-	-	-
Past due over 365 days (Note)	100%	128, 869	19, 971	108, 898

Note: The accounts receivable of Sunset Project of mercury vapor lamp awarded from Taichung City Government is included. Please refer to Note 12.4 for relevant information.

- (3) The movements of the loss allowances of notes receivable and accounts receivable, including those from notes receivable, accounts receivable, long-term receivables and related parties, are as follows:

Item	2025	2024
Balance on January 1	\$ 19, 987	\$ 20, 390
Add: Recognition of impairment losses	-	-
Less: Reversal of impairment losses	(650)	(451)
Less: Derecognition	-	-
Less: Uncollectible accounts written off	-	-
Effects from foreign exchange difference	7	48
Others	-	-
Balance on December 31	\$ 19, 344	\$ 19, 987

- (4) Please refer to Note 12 for information on relevant credit risk management and valuation method.

6.5 Inventories and cost of goods sold

Item	December 31, 2025	December 31, 2024
Raw materials	\$ 35, 676	\$ 37, 827
Merchandise	6, 235	8, 499
Work in process	29, 723	28, 421
Finished goods	73, 347	56, 817
Net amount	\$ 144, 981	\$ 131, 564

(1) The cost of inventories recognized as expense (gain) for 2025 and 2024:

	2025	2024
Cost of goods sold	\$ 553,135	\$ 515,824
Unallocated overheads	46,131	52,512
Loss on decline (reversal gain) in market value of inventories	(3,093)	(603)
Gain (loss) from inventory take	1	1
Total operating costs	<u>\$ 596,174</u>	<u>\$ 567,734</u>

(2) In 2025 and 2024, the Group wrote down its inventories to net realizable value.

The amount of the write-down was reversed from obsolete inventories sold due to growth of the industry. The Group thus recognized inventory valuation loss (reversal gain) of (\$3,093) thousand and (\$603) thousand for 2025 and 2024, respectively.

(3) The Group has no inventories pledged to others.

6.6 Other financial assets

Item	December 31, 2025	December 31, 2024
Other financial assets - current		
Reserved deposits	\$ 6,000	\$ 6,000
Restricted time deposits	176,283	175,159
Time deposits over 3 months	207,562	14,928
Total	<u>\$ 389,845</u>	<u>\$ 196,087</u>

6.7 Financial assets at fair value through other comprehensive income

Item	December 31, 2025	December 31, 2024
Debt instruments		
Corporate bonds	\$ 62,817	\$ 65,444
Valuation adjustment	(5,057)	(3,268)
Subtotal	<u>57,760</u>	<u>62,176</u>
Equity instruments		
Unlisted shares, domestic & foreign	\$ 150,061	\$ 157,447
Valuation adjustment	(46,471)	(47,701)
Subtotal	<u>103,590</u>	<u>109,746</u>
Total	<u>\$ 161,350</u>	<u>\$ 171,922</u>

(1) The Group invests in the stocks of domestic and foreign companies for medium- to long-term strategic purposes and expects to earn profits from these investments over the long term. The Group's management believes that it would be

inconsistent with the aforementioned long-term investment plan to include short-term fair value fluctuations of these investments in profit or loss, and therefore has elected to designate these investments as measured at FVTOCI. The fair values of these investments as of December 31, 2025 and 2024 are \$103,590 thousand and \$109,746 thousand, respectively.

- (2) After evaluation, there is no expected credit impairment loss allowance to be recognized for the above recorded debt instrument investments measured at FVTOCI.
- (3) Please refer to Note 12 for information on relevant management and measurement of credit risk.

6.8 Investments accounted for using the equity method

Item	December 31, 2025	December 31, 2024
Subsidiaries not included in the consolidation:		
Ligitek Electronics (Thailand), Ltd.	\$ -	\$ -

- (1) For information regarding the nature of business, principal place of business, and country of incorporation of the Company's subsidiaries, please refer to the table in Note 13.
- (2) The aggregate shareholdings in individual non-material related parties are summarized as follows (including subsidiaries not included in the consolidation):

Item	2025	2024
Share of profits (losses)		
Net income (loss)	(\$ 141)	\$ -
Other comprehensive income (loss) (net of tax)	-	-
Total comprehensive income (loss) for the year	(\$ 141)	\$ -

- (3) Lichi Electronics (Thailand), Ltd. completed dissolution and liquidation on May 31, 2025. Investment gains and losses were recognized using the equity method through the dissolution date. As of December 31, 2025, the liquidation process has been completed.

6.9 Property, plant and equipment

	December 31, 2025	December 31, 2024
Assets used by the Group	\$ 355,818	\$ 409,704
Assets under operating leases	37,873	1,200
Total	<u>\$ 393,691</u>	<u>\$ 410,904</u>

- (1) The amount of capitalization of borrowing costs was \$0 thousand dollar in 2025 and 2024.
- (2) Please refer to Note 8 for information on the Group's property, plant and equipment that were pledged to others.
- (3) As there was no indication of impairment in 2025 and 2024, no impairment assessment was performed.

Assets used by the Group

	December 31, 2025	December 31, 2024
Land	\$ -	\$ -
Buildings	587,516	642,045

Balance on December 31, 2024	\$ -	\$ 2,935	\$ 2,935

- (4) The Group leased out other equipment under operating leases and the lease terms are 1~3 years. All operating lease contracts contain market rent review clauses in the event that the lessees exercise their options to extend. The lessees do not have bargain purchase options to acquire the assets at the end of the lease terms.
- (5) The maturity analysis of operating lease payments for owned plant, property and equipment is as follows:

	December 31, 2025	December 31, 2024
Year 1	\$ 9,073	\$ 114
Year 2	9,373	48
Year 3	5,624	-
Total	\$ 24,070	\$ 162

- (6) As of December 31, 2025 and 2024, the fair value of assets leased out under operating leases by the Group remained higher than their net carrying amounts, and no impairment was recognized.

6.10 Lease agreements

(2) Lease liabilities

	December 31, 2025	December 31, 2024
Carrying amount of lease liabilities		
Current	\$ 12,527	\$ 12,088
Noncurrent	\$ 6,582	\$ 11,680

The ranges of discount rates for the lease liabilities:

	December 31, 2025	December 31, 2024
Land	1.873%	1.873%
Buildings	1.8816%	1.683%~1.7748%
Other equipment	1.530%~1.875%	1.530%

Please refer to Note 12.3 for information on the maturity analysis of the lease liabilities.

(3) Major lease-in activities and terms

The Group leases state-owned land, certain buildings and other equipment for use as office premises, plant and by vehicles for terms of 1 ~ 20 years, and the Group has recorded the right to renew the leases after the expiry of the lease terms in the lease liabilities. In addition, per the contracts, the Group is prohibited from subleasing the underlying assets without the lessor's consent. As of December 31, 2025 and 2024, there was no indication of impairment for the right-of-use assets. Therefore, no impairment assessment was performed for these assets.

(4) Other lease information

Cash outflow relating to leases for the year is as follows:

	2025	2024
Expenses relating to short-term leases	\$ 570	\$ 815
Expenses relating to low-value asset leases	\$ 224	\$ 94
Expenses relating to variable lease payments not included in the measurement of lease liabilities	\$ -	\$ -
Total cash outflow for leases (Note)	\$ 13, 620	\$ 14, 742

Note: Including payments for the principal and interest portions of lease liabilities.

The Group elected to apply the recognition exemption for short-term leases and low-value asset leases and, thus, did not recognize right-of-use assets and lease liabilities for these leases for 2025 and 2024.

6.11 Investment properties

Item	December 31, 2025	December 31, 2024

6.13 Short-term borrowings

Nature of borrowings	December 31, 2025	
	Amount	Interest rate
Secured borrowings	\$ 316,750	1.72%~1.97%
Credit borrowings	260,000	1.90%~1.99%
Total	<u>\$ 576,750</u>	
Nature of borrowings	December 31, 2024	
	Amount	Interest rate
Secured borrowings	\$ 316,750	1.70%~1.97%
Credit borrowings	190,000	1.85%~1.95%
Total	<u>\$ 506,750</u>	

The Group pledged part of its property, plant and equipment as well as other financial assets as collaterals for short-term borrowings. Please refer to Note 8 for more information.

6.14 Provisions – current

Item	Employee benefits	Warranty Provision	Carbon fee	Total
Balance on January 1, 2025	\$ 4,359	\$ 1,580	\$ –	\$ 5,939
Recognized during the period	6,377	888	–	7,265
Used during the period	(6,538)	(205)	–	(6,743)
Unused amount reversed during the period	–	–	–	–
Effect from written-off subsidiaries	–	–	–	–
Balance on December 31, 2025	\$ 4,198	\$ 2,263	\$ –	\$ 6,461

Item	December 31, 2025	December 31, 2024
Current	\$ 6,461	\$ 5,939
Non-current	–	–
Total	\$ 6,461	\$ 5,939

- (1) Provision for employee benefits is estimated, based on vested long-service leave.
- (2) The warranty provisions of the Group mainly relate to sales of LED products and are estimated with reference of historical data.
- (3) Based on the carbon emissions assessed from the prior year's carbon inventory, the Company has determined that it does not meet the threshold for carbon fee imposition. Therefore, it does not intend to recognize a provision for carbon fee liabilities.

6.15 Long-term borrowings and current portion

Lending institution	Loan maturity date	December 31, 2025	December 31, 2024	Repayment method
Taiwan Cooperative Bank	2025.03.01	\$ –	\$ 2,955	Note (1), (2), (4)
E.SUN Commercial Bank	2026.10.19	8,488	18,513	Note (3), (4)
Total		8,488	21,468	
Less: Current portion		(8,488)	(12,900)	
Long-term borrowings		\$ –	\$ 8,568	
Interest rates		1.74%	1.74%~1.928%	

- (1) The principal and interest of Group's secured long-term borrowing of \$250,000 thousand from Taiwan Cooperative Bank are repaid in equal monthly installments from April 1, 2010, over 180 months.
- (2) On February 25, 2011, the Group made additional principal repayments of \$90,000 thousand in addition to the monthly amortization and recalculated the average monthly repayment amounts.

- (3) The principal and interest of Group's secured long-term borrowing of \$30,000 thousand from E.SUN Commercial Bank are repaid in equal monthly installments from October 20, 2023, over 36 months.
- (4) Please refer to Note 8 for collaterals of borrowings from banks.

6.16 Pension

(1) Defined contribution plan

- A. The employee pension plan under the Labor Pension Act of the Republic of China ("R.O.C.") is a defined contribution plan. Pursuant to the plan, the Company and its domestic subsidiaries make monthly contributions of 6% of each individual employee's salary or wage to employees' pension accounts. Pension benefits for employees of subsidiaries overseas were provided in accordance with the local regulations.
- B. A total of \$7,450 thousand and \$6,889 thousand were contributed by the Group for 2025 and 2024, respectively.

(2) Defined benefit plan

- A. The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Act of the R.O.C. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 3% of the employees' monthly salaries and wages to the retirement fund deposited in Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by the end of each year. If the account balance is not enough to pay the pension to the labors expected to be qualified for retirement in the following year, the Company will make contribution for the deficit by next March. The pension fund is managed by the government's designated authorities and the Group has no right to influence their investment strategies.
- B. The Company settled the Years of Service in Old System in accordance with the Labor Standards Act and the Labor Pension Act, resulting in a settlement gain of \$8,630 thousand for the current period. This settlement was approved by the competent authority on December 10, 2025.

C. The Group's obligations arising from defined benefit plans are presented on the balance sheet as follows:

Item	December 31, 2025	December 31, 2024
Present value of defined benefit obligations	\$ -	\$ 25,910
Fair value of plan assets	-	(25,255)
Net defined benefit liability (asset)	\$ -	\$ 655

(3) Movements in net defined benefit liabilities are as follows:

Item	2025		
	Present value of defined benefit obligations	Fair value of plan asset	Net defined benefit liability
Balance on January 1, 2025	\$ 25,910	(\$ 25,255)	\$ 655
Service cost:			
Current service cost	-	-	-
Past service cost	-	-	-
Interest expense (revenue)	388	(385)	3
Settlement gain (loss)	(11,459)	2,829	(8,630)
Recorded in profit (loss)	(11,071)	2,444	(8,627)
Remeasurements:			
Return on plan asset (excluding amounts in net interest)	-	(1,695)	(1,695)
Actuarial (gains) losses —			
Effect of change in demographic assumptions	-	-	-
Effect of change in financial assumptions	-	-	-
Experience adjustments	(558)	-	(558)
Amounts recognized in other comprehensive income	(558)	(1,695)	(2,253)
Pension fund contribution by employer	-	(723)	(723)
Paid benefits	(14,281)	14,281	-
Refund from pension fund		10,948	10,948
Balance on December 31, 2025	\$ -	\$ -	\$ -

Item	2024		
	Present value of defined benefit obligations	Fair value of plan asset	Net defined benefit liability
Balance at January 1, 2024	\$ 25,060	(\$ 22,146)	\$ 2,914
Service cost:			
Current service cost	-	-	-
Past service cost	-	-	-
Interest expense (revenue)	313	(283)	30
Recorded in profit (loss)	313	(283)	30
Remeasurements:			
Return on plan asset (excluding amounts in net interest)	-	(1,933)	(1,933)
Actuarial (gains) losses —			
Effect of change in demographic assumptions	-	-	-
Effect of change in financial assumptions	(13)	-	(13)
Experience adjustments	550	-	550
Amounts recognized in other comprehensive income	537	(1,933)	(1,396)
Pension fund contribution by employer	-	(893)	(893)
Paid benefits	-	-	-
Balance on December 31, 2024	\$ 25,910	(\$ 25,255)	\$ 655

(4) Due to the defined benefit plans under the Labor Standards Act, the Group is exposed to the following risks:

A. Investment risk

The pension funds are invested in equity and debt securities, bank deposits, etc. at the discretion of the Bureau of Labor Funds of Ministry of Labor, or under the mandated management. However, under the Labor Standards Act, the rate of return on plan assets shall not be less than the average interest rate on a two-year time deposit published by the local banks.

B. Interest rate risk

A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the debt investments of the plan assets.

C. Salary risk

The present value of the defined benefit obligation is calculated by reference to the future salaries of plan participants. As such, an increase in the salary

of the plan participants will increase the present value of the defined benefit obligation.

- (5) The present value of the Company's defined benefit obligation is actuarially determined by a qualified actuary. Significant assumptions at the measurement date are presented below.

Item	Measurement Date	
	December 31, 2025	December 31, 2024
Discount rate	-	1.50%
Future salary increase rate	-	3.00%
The average duration of the defined benefit obligation	-	7.5 years

Assumptions on future mortality experience are set based on the 6th Taiwan Standard Ordinary Experience Mortality Table (TSO).

- (6) Reasonably possible changes on December 31, 2025 and 2024 to one of the relevant actuarial assumptions, holding other assumptions constant, would have caused the defined benefit obligation to increase (decrease) by the amounts shown below:

Item	December 31, 2025	December 31, 2024
Discount rate	1.50%	1.50%
0.25% increase	\$ -	(\$ 479)
0.25% decrease	\$ -	\$ 493
Expected salary increase rate	3.00%	3.00%
0.25% increase	\$ -	\$ 478
0.25% decrease	\$ -	(\$ 466)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

- (7) The contribution that the Group expects to / actually make to the defined benefit pension plans in 2026 and 2025 is \$0 thousand and \$723 thousand, respectively.

6.17 Share capital

- (1) The movements in the number of the Company's ordinary shares outstanding are as follows:

	2025	
	Shares (in thousands)	Amount
Balance on January 1	109, 102	\$ 1, 091, 022
Balance on December 31	109, 102	\$ 1, 091, 022

	2024	
	Shares (in thousands)	Amount
Balance on January 1	109, 102	\$ 1, 091, 022
Balance on December 31	109, 102	\$ 1, 091, 022

- (2) As of December 31, 2025, the Company's authorized capital amount was \$2,000,000 thousand, consisting of 200,000 thousand shares.

6.18 Capital surplus

Item	December 31, 2025	December 31, 2024
Difference between consideration and carrying amount of subsidiaries acquired or disposed	\$ 725	\$ 725
Reorganization	878	878
Uncollected overdue dividends by shareholders	842	842
Treasury shares transaction	4, 089	4, 089
Total	\$ 6, 534	\$ 6, 534

Under the Company Act, where the Company incurs no loss, it may distribute its additional paid-in capital and endowments received by the Company by issuing new shares as dividend shares to its original shareholders in proportion to the number of shares being held by each of them or by cash. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient. The capital surplus from long-term investments may not be used for any purpose.

6.19 Retained earnings and dividend policy

(1) Dividend policies

Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses, and then 10% of the remaining amount shall be set aside as legal reserve, except when the legal reserve has reached the Company's paid-in capital; In addition to distribution of dividends, the remaining earnings are combined with retained earnings at the beginning of the period, then distribute dividends to shareholders after consent by the shareholders, and if new shares are to be issued, the proposal shall be submitted to the shareholders' meeting for approval and distribution.

With the attendance of at least two-thirds of the directors, and over half of which resolves that all or a portion of the dividends, bonuses, capital surplus and legal reserve to be distributed shall be in the form of cash and shall report at the shareholders' meeting.

The Company's dividend policy is to make appropriate dividend distributions in accordance with current and future development plans, taking into account the investment environment, capital planning and domestic and international competition, as well as taking into account the interests of shareholders. No less than 15% of the distributable earnings shall be distributed annually as dividends to shareholders, except that if the accumulated distributable earnings are less than 15% of the paid-in capital, dividends may not be distributed; Dividends may be distributed to shareholders in cash or in shares, of which cash dividends of not less than 10% of the total dividends.

- (2) Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is limited to the portion in excess of 25% of the Company's paid-in capital.
- (3) A. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
B. The amounts previously set aside by the Company as special reserve in accordance with Jin-Guan-Zheng-Fa-Zi Letter No. 1090150022, announced on

March 31, 2021, shall be reversed proportionately to retain earnings when the relevant assets are used, disposed of or reclassified subsequently.

- (4) The appropriations of 2024 and 2023 earnings have been approved by the shareholders in its meetings in June 2025 as well as June 2024 and the appropriations as well as dividends per share were as follows:

	Appropriation of Earnings		Dividends Per Share (NT\$)	
	2024	2023	2024	2023
Legal reserve	\$ 10,035	\$ 6,225	-	-
Special reserve	(18,087)	3,722	-	-
Cash dividends of common shares	98,192	87,281	0.90	0.80
Total	<u>\$ 90,140</u>	<u>\$ 97,228</u>		

- (5) In the Board of Directors meeting on February 25, 2026, the appropriation of 2025 earnings is drafted as follows:

	Appropriation of	Dividends Per Share	
	Earnings	(NT\$)	
Legal reserve	\$ 3,594		
Special reserve	3,975		
Cash dividends	65,461	\$	0.60
Stock dividends	-		-

The appropriation of 2025 earnings is subject to the resolution of the regular shareholders' meeting to be held in May 2026.

- (6) Information on the resolution of the Board of Directors' and shareholders' meetings regarding the appropriation of earnings is available from the Market Observation Post System on the website of the TWSE.

6.20 Other equity

Item	Exchange differences on translation of foreign financial statements	Unrealized gains (losses) on valuation of financial assets at FVTOCI	Total
Balance on January 1, 2025	\$ 30,218	(\$ 50,752)	(\$ 20,534)

Balance on December 31, 2024	<u>\$ 30,218</u>	<u>(\$ 50,752)</u>	<u>(\$ 20,534)</u>

6.21 Non-controlling interests

Item	2025	2024
Balance on January 1	\$ 2,839	\$ 2,770
Share attributable to non-controlling interests:		
Net income (loss)	(10)	(719)
Other comprehensive income (loss)	(28)	58
Increase (decrease) in non-controlling interest	(132)	730
Balance on December 31	<u>\$ 2,669</u>	<u>\$ 2,839</u>

6.22 Operating revenue

Item	2025	2024
Revenue from contracts with customers		
Sales revenue	\$ 851,588	\$ 809,094
Total	\$ 851,588	\$ 809,094

(1) Breakdowns of revenue from contracts with customers

The Group's revenue from contracts with customers may be divided into the following major product lines and sales regions:

Segments	2025	2024
<u>Primary geographical market</u>		
Taiwan	\$ 403,183	\$ 338,799
Americas	25,414	50,523
Europe	108,331	105,909
Asia	310,859	309,876
Others	3,801	3,987
Total	\$ 851,588	\$ 809,094
 <u>Major goods/service lines</u>		
LED modules	\$ 473,069	\$ 465,967
Semiconductor-related products	196,955	149,740
Other products	181,564	193,387
Total	\$ 851,588	\$ 809,094
 <u>Timing of revenue recognition</u>		
Goods transferred at a point in time	\$ 851,588	\$ 809,094
Total	\$ 851,588	\$ 809,094

(2) Contract balances

The recognized accounts receivable, contract assets and contract liabilities arising from contracts with customers are as follows:

Item	December 31, 2025	December 31, 2024	January 1, 2024
Notes and accounts receivable	\$ 203,071	\$ 314,173	\$ 287,892
Contract liabilities - current			
Sale of goods	\$ 11,317	\$ 12,410	\$ 13,273

Significant changes in contract assets and contract liabilities:

The changes in the balances of contract assets and contract liabilities primarily result from the timing difference between the Group's performance and the respective customer's payment.

(3) Revenue recognized, during the period, from the beginning contract liabilities is as follows:

	2025	2024
Revenue recognized in the current period from the opening balance of contract liabilities		
Sale of goods	\$ 12,410	\$ 13,273

(4) Unfulfilled contracts with customer

As of December 31, 2025 and 2024, the Group's unfulfilled contracts with customers are expected to be fulfilled within a year, with the revenue recognized in the following year.

6.23 Employee benefits, depreciation, depletion and amortization expense

By nature	2025		
	Operating costs	Operating expenses	Total
Employee benefits expense			
Salary	\$ 99,869	\$ 104,522	\$ 204,391

Other employee benefits	4,049	3,493	7,542
Depreciation expense	38,510	14,787	53,297
Amortization expense	25	1,234	1,259
Total	<u>\$ 146,404</u>	<u>\$ 148,545</u>	<u>\$ 294,949</u>

- (1) The Company shall allocate not lower than 1% and not higher than 5% of annual profits during the period to employees' compensation and directors' and supervisors' remuneration, respectively. The estimated employees' compensation, not lower than 1% of the annual profits, for 2025 and 2024 are \$2,106 thousand and \$5,022 thousand, respectively and the estimated directors' and supervisors' remuneration, not higher than 5%, for 2025 and 2024 are \$527 thousand and \$1,256 thousand, respectively. If there is a change in the proposed amount after the annual consolidated financial statement are authorized for issue, the difference is recorded as a change in accounting estimate next year.
- (2) The employees' compensation and directors' and supervisors' remuneration for 2025 and 2024 were approved in the meetings of the Board of Directors on February 25, 2026 and March 12, 2025, respectively. The amounts recognized in the financial reports were as follows:

	2025		2024	
	Employees' compensation	Directors' and supervisors' remuneration	Employees' compensation	Directors' and supervisors' remuneration
Amount resolved to be distributed	\$ 2,106	\$ 527	\$ 5,022	\$ 1,256
Amount recognized in financial reports	2,106	527	5,022	1,256
Difference	\$ –	\$ –	\$ –	\$ –

The employees' compensation aforementioned is distributed in cash.

- (3) Information on 2025 and 2024 employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the meetings of Board of Directors is available from the Market Observation Post System on the website of the TWSE.

6.24 Interest income

Item	2025	2024
Interest income		
Bank deposits interest	\$ 19,551	\$ 28,752
Interest income from debt instruments at FVTOCI	2,960	999
Interest income		
Other interest income	1,540	1,898
Total	\$ 24,051	\$ 31,649

6.25 Other income

Item	2025	2024
Rental income	\$ 2,734	\$ 1,216
Dividend income	3,721	588
Other income - other	14,168	5,801
Total	\$ 20,623	\$ 7,605

6.26 Other gains or losses

Item	2025	2024
Gain (loss) on disposal of financial assets		
Financial assets at FVTPL	\$ 8,937	\$ 4,315
Gain (loss) on value of financial assets		
Financial assets designated as at FVTPL	981	100
Net foreign exchange gains (losses)	(44,928)	50,050
Gain (loss) on disposal of property, plant and equipment	727	(531)
Gain (loss) on disposal of other assets	(1,430)	-
Gain (loss) on disposal of investments accounted for using equity method	5,003	1,340
Others	(3,174)	(1,190)
Total	(\$ 33,884)	\$ 54,084

6.27 Financial costs

Item	2025	2024
Interest expense:		
Bank borrowings	\$ 10,332	\$ 9,567
Interest on lease liabilities	337	556
Others	34	32
Financial costs	\$ 10,703	\$ 10,155

6.28 Income tax

(1) Income tax expense (benefit):

A. Components of income tax expense (benefit)

Item	2025	2024
Current-period income tax		
Income tax generated from current-period income	\$ 13,468	\$ 4,300
Additional income tax on unappropriated earnings	-	-
Adjustments for prior periods	(550)	(562)
Total income tax for current period	12,918	3,738
Deferred income tax		
The origination and reversal of temporary differences	(6,654)	19,220
Total deferred income tax	(6,654)	19,220
Income tax expense (benefit)	\$ 6,264	\$ 22,958

B. Income tax expense (benefit) related to other comprehensive income: None.

(2) Reconciliation between accounting profit and income tax expense recognized in profit or loss:

Item	2025	2024
Income before income tax	\$ 47,321	\$ 121,191
Income before income tax subject to the statutory tax rate	\$ 9,464	\$ 24,238
Adjustment of effectives on tax		
Deductible items in determining taxable income	4,004	(19,938)
Adjustments for prior periods	(550)	(562)
Undistributed earnings subjected to additional 5% tax	-	-
Net change in deferred income tax	(6,654)	19,220
Income tax expense (benefit) recognized in profit or loss	\$ 6,264	\$ 22,958

The corporate income tax rate for entities subject to the R.O.C, Income Tax Act is 20%, and, starting from 2018, the tax rate for unappropriated earnings is 5%. For entities located in other jurisdictions, taxes are calculated using the applicable tax rate for each individual jurisdiction.

In July 2019, the president of the R.O.C. announced the amendments to the Statute for Industrial Innovation, which stipulate that the amounts of unappropriated earnings in 2018 and thereafter that are reinvested in the construction or purchase of certain assets or technologies are allowed as

deduction when computing the income tax on unappropriated earnings. When calculating the tax on unappropriated earnings, the Group only deducts the amount of the unappropriated earnings that has been reinvested in capital expenditure.

- (3) Deferred income tax assets or liabilities arising from temporary differences, operating loss carryforward, and investment tax credits:

	2025				Ending balance
	Beginning balance	Recorded in profit (loss)	Recorded in other comprehensive income (loss)	Exchange rate effects

Subtotal	12,058	-	12,058
Items that may be reclassified subsequently to profit or loss:			
Exchange differences arising on translation of foreign operations	7,506	-	7,506
Unrealized gains (losses) on valuation of debt investments at FVTOCI	(23)	-	(23)
Subtotal	7,483	-	7,483
Recognized other comprehensive income (loss)	\$ 19,541	\$ -	\$ 19,541

6.30 Earnings per common share

	2025	2024
Basic earnings per share		
Net income attributable to ordinary shareholders of the parent (A)	\$ 41,067	\$ 98,952
Weighted average number of shares outstanding for the period (in thousands)(B)	109,102	109,102
Basic earnings per share, after tax (in dollars) (A)/(B)	\$ 0.38	\$ 0.91
	2025	2024
Diluted earnings per share		
Net income attributable to ordinary shareholders of the parent (A)	\$ 41,067	\$ 98,952
Effect of the dilutive potential ordinary shares	-	-
Net income for calculating diluted earnings per share (C)	\$ 41,067	\$ 98,952
Retrospective adjusted weighted average number of shares (in thousands)	109,102	109,102
Effect of employees' compensation (in thousand shares)	49	123
Weighted average number of shares outstanding for diluted earnings per share (in thousand shares) (D)	109,151	109,225
Diluted earnings per share, after tax (in dollars) (C)/(D)	\$ 0.38	\$ 0.91

If the Company offered to settle the compensation or bonuses paid to employees in shares or cash at the Company's option, the Company assumed that the entire amount of the compensation or bonuses will be settled in shares, and the resulting potential shares are included in the weighted average number of shares outstanding used in the calculation of diluted earnings per share if the effect is dilutive. Such dilutive effect of the potential shares is included in the calculation of diluted earnings per share until the number of shares to be distributed to employees is resolved in the following year.

6.31 Reconciliation of liabilities arising from financing activities

Item	January 1, 2025	Cash flows	Non-cash changes		December 31, 2025
			New leases, change in leases and acquisition of subsidiaries	Change in Exchange Rate

Key management	\$ 42	\$ -

B. Disposal of financial assets

2025:

Related party category /Name	Item	Number of shares traded	Subject of transaction	Disposal proceeds	Gain (loss) on disposal
Jianrong Investment & Development Co., Ltd.	Financial assets at FVTOCI - noncurrent	600,000	Dawn Lead Technology CO., LTD.	\$15,000	\$ -

2024:

Related party category /Name	Item	Number of shares traded	Subject of transaction	disposal proceeds	Gain (loss) on disposal
Other related parties	Investments accounted for using equity method	2, 111, 250	Equity interest of LiMart Intelligent Retail Co., Ltd.	\$ 21	\$ 1, 340

(4) Various income (including rental income)

Item	Related party category	2025	2024
Rental income	Other related parties	\$ -	\$ 5

A. The following rental prices are determined by referring to market prices and negotiations between the lessee and the lessor, with monthly or quarterly rental payments. The content of the lease contract is as follows:

The leasing premises	Deposit	2025		2024	
		Lease term	Amount	Lease term	Amount
2F., No. 238, Bo'ai St., Shulin Dist., New Taipei City	\$ -	-	\$ -	2024. 1. 1~2024. 12. 31	\$ 5

The Company leased out office space under operating lease to its related party, Sunny Invest Co., Ltd., with a 1-year lease term. As of December 31, 2025 and 2024, the total lease payments expected to be received in the future is \$0 thousand and \$0 thousand, respectively. The recorded lease income in 2025 and 2024 was \$0 thousand and \$5 thousand, respectively.

(5) Various expenses (including rental cost)

Item	Related party category/Name	2025	2024
Operating expense	Other related parties	\$ -	\$ 46
Overhead	Key management	30	-
	Total	\$ 30	\$ 46
Non-operating expenses	Other related parties	\$ -	\$ 160

A. The above rental prices are determined by referring to market prices and negotiations between the lessee and the lessor, with monthly or quarterly rental payments. The content of the lease contract is as follows:

The leasing premises	2025		2024	
	Lease term	Amount	Lease term	Amount
3F., No. 74, Sec. 2, Changsha St., Wanhua Dist., Taipei City	-	\$ -	2024.1.1~2024.12.31/\$15	\$ 46

The consolidated entity, LiMart Intelligent Retail Co., Ltd., leased an office from Jfetek Technology Co., Ltd. under an operation lease with a 1-year lease term. As of December 31, 2025 and 2024, the total lease payments expected to be received in the future is \$0 thousand and \$0 thousand, respectively. The recorded lease expense in 2025 and 2024 was \$0 thousand and \$46 thousand, respectively.

- (6) Accounts receivable from related parties and accounts payable to related parties:
None.

7.4 Key management compensation

Related party category / Name	2025	2024
Salaries and other short-term employee benefits	\$ 27,312	\$ 30,686
Post-employment benefits	-	17
Total	\$ 27,312	\$ 30,703

8. Pledged Assets

The Group's assets pledged for borrowings and performance guarantees are as follows:

Item	December 31, 2025	December 31, 2024
Property, plant and equipment, net (including investment properties)	\$ 316,249	\$ 326,932
Other financial assets – current	182,283	181,159
Total	\$ 498,532	\$ 508,091

9. Significant Contingent Liabilities and Unrecognized Contract Commitments

9.1 To secure loan facilities, the Group issued guarantee notes of \$1,193,425 thousand and \$1,131,705 thousand as of December 31, 2025 and 2024, respectively, and the corresponding guarantee notes paid and guarantee notes payable were recorded accordingly.

9.2 To ensure collectability for construction performed and goods sold, the Group received guarantee notes of \$8,962 thousand and \$10,255 thousand as of December 31, 2025 and 2024, respectively, and the corresponding guarantee notes received and guarantee notes receivable were recorded accordingly.

9.3 Please refer to Note 13.1 for the information on endorsement by the Group as of December 31, 2025 and 2024.

9.4 Contracts of \$950 thousand and \$0 thousand were set by the Group as of December 31, 2025 and 2024 for purpose of machinery. The payments already made amounted to \$0 thousand and \$0 thousand, respectively.

10. Significant Disaster Losses: None.

11. Significant Subsequent Events: None.

12. Others

12.1 Capital risk management

The Group conducts capital risk management in order to ensure the continuity of the Group, maintain an optimal capital structure for reducing capital cost, and provide returns to the shareholders.

12.2 Financial instruments

(1) Financial risks associated with financial instruments

Financial risk management policies

The Group's activities expose it to a variety of financial risks: (1) market risk, including foreign exchange risk, interest rate risk and price risk, (2) credit risk, and (3) liquidity risk. The Group's overall risk management strategy focuses on the unpredictability of financial markets and seeks to mitigate potential adverse effects on the Group's financial position and financial performance.

The Group's material financial activities are approved by the Board of Directors in accordance with relevant requirements and internal control mechanism, which requires the Group to comply with its financial operating policies and procedures that provide guiding principles for the overall financial risk management and accountability and separation of duties.

A. The nature and degree of the significant financial risks

(A) Market Risk

a. Foreign exchange risk

- (a) The Group is exposed to exchange rate risk arising from sales, purchases and borrowing transactions and net investments in foreign operations that are not denominated in the Group's functional currency. The functional currency of the Group's businesses is primarily NTD, but also includes RMB, USD and HKD. The main currencies of these transactions are USD and RMB. To avoid decrease in the value of foreign-currency assets and the fluctuation of future cash flows due to the exchange rate fluctuations, the Group utilizes foreign-currency borrowings to hedge the exchange rate risk.

The Group's investments in foreign operations present a strategic investment and, thus, are not hedged.

(b) Sensitivity analysis of foreign currency risk

	December 31, 2025					
	Foreign Currency	Exchange Rate	Book Value (NTD)	Sensitivity Analysis		
				Movement	Impact on Profit or Loss	Impact on Equity
<u>Financial assets</u>						
<u>Monetary items</u>						
USD: NTD	\$ 21,169	31.38	\$ 664,292	1%	\$ 5,314	\$ -
USD: RMB	292	7.0201	9,166	1%	73	-
<u>Non-Monetary items</u>						
USD: NTD	2,125	31.38	66,680	1%	-	533
RMB: NTD	12,527	4.47	55,994	1%	-	448
<u>Financial liabilities</u>						
<u>Monetary items</u>						
USD: NTD	448	31.38	14,068	1%	113	-
RMB: NTD	2,061	4.47	9,215	1%	74	-

December 31, 2024						
	Foreign Currency	Exchange Rate	Book Value	Sensitivity Analysis		
			(NTD)	Movement	Impact on Profit or Loss	Impact on Equity
(Foreign currency: functional currency)						
<u>Financial assets</u>						
<u>Monetary items</u>						
USD: NTD	\$ 23,497	32.74	\$ 769,282	1%	\$ 6,154	\$ -
USD: RMB	303	7.3573	9,911	1%	79	-
<u>Non-Monetary items</u>						
USD: NTD	1,963	32.74	64,271	1%	-	514
RMB: NTD	13,635	4.45	60,675	1%	-	485
THB: NTD	27,596	0.9423	26,004	1%	-	208
<u>Financial liabilities</u>						
<u>Monetary items</u>						
USD: NTD	556	32.74	18,198	1%	146	-
RMB: NTD	2,443	4.45	10,871	1%	87	-

- (c) The unrealized exchange gain (loss) arising from significant exchange rate movement on the monetary items held by the Group: None major influence under assessment.

b. Price risk

The Group is exposed to the price risk associated with the equity investments held by the Group. These investments are classified either as financial assets at FVTPL or as financial assets at FVTOCI in Balance Sheets.

The Group mainly invests in domestic and foreign equity instruments. The prices of these equity securities would be affected due to uncertainty in the future value of the underlying investment targets.

If the prices of equity instruments increase or decrease by 1%, the 2025 and 2024 after-tax net income and after-tax other comprehensive income, due to increase or decrease in fair value of financial assets measured at FVTPL and financial assets measured at FVTOCI, would increase (decrease) by \$565 thousand, \$635 thousand and \$1,036 thousand, \$1,097 thousand, respectively.

c. Interest rate risk

- (a) The Group's interest rate risk is mainly attributable to its investment positions and financial liabilities. The carrying amounts of financial assets and financial liabilities exposed to interest rate risk at the reporting date are as follows:

Item	Carrying Amounts	
	December 31, 2025	December 31, 2024
Fair value interest rate risk:		
Financial assets	\$ 484,738	\$ 537,362
Financial liabilities	(254,000)	(254,000)
Net amount	<u>\$ 230,738</u>	<u>\$ 283,362</u>
Cash flow interest rate risk		
Financial assets	\$ 633,829	\$ 461,837
Financial liabilities	(331,238)	(274,218)
Net amount	<u>\$ 302,591</u>	<u>\$ 187,619</u>

- (b) Sensitivity analysis for instruments with fair value interest rate risk:

The Group's holding of financial assets with fixed interest rates exposes the Group to fair value interest rate risk.

If the interest rate on borrowings had increased or decreased by 1% with all other factors held constant, other comprehensive income would increase (decrease) by \$578 thousand and \$622 thousand in 2025 and 2024, respectively, primarily due to the changes in fair value of fixed-rate bond investments, which are classified as financial assets measured at fair value through other comprehensive income, as a result of the changes in fair value of bond investments due to changes in market interest rates.

- (c) Sensitivity analysis for instruments with cash flow interest rate risk:

The effective interest rates for the Group's floating interest rate financial instruments are susceptible to the market interest rate, affecting the Group's future cash flows. If the market interest rate increases (decreases) by 1%, the Group's net income will increase (decrease) by \$2,421 thousand and \$1,501 thousand for 2025 and 2024, respectively.

(B) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Group is exposed to credit risk from operating activities, primarily trade receivables, and from investing activities, primarily bank deposits and other financial instruments.

Credit risk is managed separately for business related and financial related exposures.

a. Business-related credit risk:

In order to maintain the credit quality of trade receivables, the Group has established procedures to monitor and limit exposure to credit risk on trade receivables. Credit evaluation is performed taking into account relevant factors that may affect a customer's paying ability such as the customer's financial condition and historical transaction records, external and internal credit rating, and economic conditions.

b. Financial credit risk:

The Group's exposure to financial credit risk pertaining to bank deposits and other financial instruments was evaluated and monitored by the Group's treasury function. The Group only transacts with creditworthy counterparties and banks; therefore, no significant financial credit risk was identified. The Group has no debt investments classified as at amortized cost or as at FVTOCI. Please refer to Note (d) for information on investment related credit grading.

(a) Credit concentration risk

The proportion of the accounts receivable from the ten largest customers to the total balance of accounts receivable as of December 31, 2025 and December 31, 2024 was 68.51% and 66.99%, respectively. The credit concentration risk associated with other accounts receivable is insignificant.

(b) Measurement of expected credit losses

Accounts receivable: The Group uses the simplified approach to measure the expected credit losses of accounts receivable. Please refer to Note 6.4 for more information.

The basis for determining whether there is a significant increase in credit risk: None.

(c) Collaterals held by the Group contains no security and other credit enhancements to mitigate the credit risk associated with financial assets.

(d) Credit risk grading information on the debt investments cost and at FVTOCI held by the Group present as follows:

a. Credit risk grading

Grading	Risk	Basis for Recognizing Expected Credit Losses
Normal	Contractual payments are within 30 days past due and the counterparty has a low risk of default and a strong capacity to meet the contractual cash flows.	12 months ECLs
Abnormal	Contractual payments are more than 30 days past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECLs - not credit-impaired
Default	Contractual payments are more than 90 days past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECLs - credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery, for example contractual payments are more than 365 days past due.	Amount is written off

b. The gross carrying amounts of debt investments grouped by credit risk grading and related expected credit losses were as follows:

December 31, 2025

Credit risk grading	Expected credit loss rate	Gross Carrying Amounts

(C) Liquidity risk

a. Liquidity risk management

The objective of the Group's management of liquidity risk is to maintain sufficient cash and cash equivalents, highly liquid securities, and banking facilities to ensure that the Group has sufficient financial flexibility for its operations.

b. Maturity analysis for financial liabilities:

Non-derivative financial liabilities	December 31, 2025					Contractual cash flows	Carrying amount
	Within 6 months	6-12 months	1-2 years	2-5 years	Over 5 years		
Short-term borrowings	\$ 479,025	\$ 101,574	\$ -	\$ -	\$ -	\$ 580,599	\$ 576,750
Notes payable	79	-	-	-	-	79	79
Accounts payable (including related parties)	90,109	-	1,300	228	-	91,637	91,637
Other payables (including related parties)	87,499	147	9	82	934	88,671	88,671
Long-term borrowings (including those due within one year or one business cycle)	5,134	3,422	-	-	-	8,556	8,488
Guarantee deposits received	3,805	728	467	825	1,220	7,045	7,045
Total	\$ 665,651	\$ 105,871	\$ 1,776	\$ 1,135	\$ 2,154	\$ 776,587	\$ 772,670

Further information on maturity analysis for lease liabilities:

Lease liabilities	Less than 1 year	1~5 years	5~10 years	10~15 years	15~20 years	More than 20 years	Total undiscounted lease payments
		\$ 12,755	\$ 6,638	\$ -	\$ -	\$ -	\$ -

Non-derivative financial liabilities	December 31, 2024					Contractual cash flows	Carrying amount
	Within 6 months	6-12 months	1-2 years	2-5 years	Over 5 years		
Short-term borrowings	\$ 509,151	\$ -	\$ -	\$ -	\$ -	\$ 509,151	\$ 506,750
Notes payable	79	-	-	-	-	79	79
Accounts payable (including related parties)	104,340	587	71	70	-	105,068	105,068
Other payables (including related parties)	83,218	587	374	-	934	85,113	85,113
Long-term borrowings (including those due within one year or one business cycle)	8,098	5,134	8,556	-	-	21,788	21,468
Guarantee deposits received	670	332	3,137	1,909	-	6,048	6,048
Total	\$ 705,556	\$ 6,640	\$ 12,138	\$ 1,979	\$ 934	\$ 727,247	\$ 724,526

Further information on maturity analysis for lease liabilities:

Lease liabilities	Less than 1 year	1~5 years	5~10 years	10~15 years	15~20 years	More than 20 years	Total undiscounted lease payments
		\$ 12,405	\$ 11,849	\$ -	\$ -	\$ -	\$ -

The Group does not expect the timing and amount of cash flows in the above maturity analysis would be significantly different than that of the actual condition.

(2) Categories of financial instruments

The carrying amounts of the financial assets and financial liabilities as of December 31, 2025 and December 31, 2024 are as follows:

	December 31, 2025	December 31, 2024
<u>Financial Assets</u>		
Financial assets at amortized cost		
Cash and cash equivalents	\$ 671, 595	\$ 741, 746
Notes receivable and accounts receivable (including related parties)	203, 071	314, 173
Other receivables	6, 393	8, 755
Other financial assets (including noncurrent ones)	389, 845	196, 087
Refundable deposits	38, 508	52, 854
Financial assets at FVTPL – current	69, 252	76, 080
Financial assets at FVTOCI – noncurrent	161, 350	171, 922
	December 31, 2025	December 31, 2024
<u>Financial liabilities</u>		
Financial liabilities at amortized cost		
Short-term borrowings	576, 750	506, 750
Notes payable and accounts payable (including related parties)	91, 716	105, 147
Other payable (including related parties)	88, 671	85, 113
Guaranteed deposits received	7, 045	6, 048
Long-term borrowing, including current portion	8, 488	21, 468

12.3 Fair value information

- (1) Details of the fair values of the Group's financial assets and financial liabilities not measured at fair value are provided in Note 12.3(3).
- (2) Fair value measurements are grouped into Levels 1 to 3 as follows:

Level 1

Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks and beneficiary certificates with quoted market prices are included in this level.

Level 2

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. The fair value of the Group's investment in conditional certificate of deposit is included in this level.

Level 3

Unobservable inputs for the asset or liability. The fair value of the Group's investment in unlisted equity instrument is included in this level.

(3) Financial instruments that are not measured at fair value

The carrying amounts of the Group's financial instruments not measured at fair value (including cash and cash equivalents, notes receivable, accounts receivable, other receivable, other financial assets, guaranteed deposits paid, short-term borrowing, notes payable, accounts payable, other payable and guaranteed deposits received) approximate to their fair values.

(4) Fair value hierarchy information on financial instruments that are measured at fair value

The information on the Group's assets and liabilities that are measured at fair value on a recurring or non-recurring basis is as follows:

Item	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Financial assets at FVTOCI	\$ -	\$ 65,430	\$ 95,920	\$ 161,350
Financial assets at FVTPL	56,451	12,801	-	69,252
Total	<u>\$ 56,451</u>	<u>\$ 78,231</u>	<u>\$ 95,920</u>	<u>\$ 230,602</u>
Item	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Financial assets at FVTOCI	\$ -	\$ 71,500	\$ 100,422	\$ 171,922
Financial assets at FVTPL	63,496	12,584	-	76,080
Total	<u>\$ 63,496</u>	<u>\$ 84,084</u>	<u>\$ 100,422</u>	<u>\$ 248,002</u>

(5) The methods and assumptions the Group used to measure fair values are as follows:

A. The Group measures the fair values of its financial instruments with an active market using their quoted prices in the active market. The market prices announced by the major exchanges and the central government bond counter trading centers, which are judged to be popular, are the basis for the fair value of listed equity instruments and debt instruments with active market quotations.

A financial instrument has an active market for public quotations if public quotations are obtained from an exchange, broker, underwriter, industry

association, pricing service or competent authority in a timely manner and on a regular basis, and if the prices represent actual and frequent arm's-length market transactions. If these conditions are not met, the market is not considered active. In general, a very large bid-ask spread, a significant increase in the bid-ask spread, or a very low trading volume are all indicators of an inactive market.

The instruments the Group uses market quoted prices as their fair values are listed below by characteristics:

(A) Listed shares: Closing price

(B) Open-end funds: Net asset value

Except for the above-mentioned financial instruments with active markets, the fair values of the remaining financial instruments are obtained using valuation techniques or by reference to quoted prices from counterparties. The fair values obtained through valuation techniques are calculated by reference to the current fair values of other financial instruments with substantially similar conditions and characteristics, the discounted cash flow method, or other valuation techniques, including the use of models with market information available at the date of the consolidated balance sheets.

The fair value of the Group's shares in unlisted companies with no active market is estimated mainly by the market approach, which is based on the evaluation of similar companies, third-party quotes, net worth and operating conditions.

(6) Transfer between Level 1 and Level 2 of the fair value hierarchy: None.

(7) Changes in level 3 instruments are shown in the table below:

<u>Financial assets at fair value</u>	<u>Equity securities</u>
January 1, 2025	\$ 100,422
Gains or losses recognized in profit or loss	-
Gains or losses recognized in other comprehensive income	(4,502)
Acquired during the period	-
Disposed of during the period	-
Transferred into level 3	-
Transferred out of level 3	-
December 31, 2025	<u><u>\$ 95,920</u></u>

Financial assets at fair value	Equity securities
January 1, 2024	\$ 90,391
Gains or losses recognized in profit or loss	-
Gains or losses recognized in other comprehensive income	10,031
Acquired during the period	-
Disposed of during the period	-
Transferred into level 3	-
Transferred out of level 3	-
December 31, 2024	<u>\$ 100,422</u>

(8) Quantitative information of significant unobservable inputs used in Level 3 fair value measurement is shown below:

	Fair Value at December 31, 2025	Valuation Technique	Significant Unobservable Inputs	Relationship Between Input and Fair Value
Non-derivative financial assets:				
Unlisted shares	\$ 95,920	Market approach	Price-book multiplier Liquidity discount	The higher the price-book multiplier, the higher the fair value; The higher the liquidity discount, the lower the fair value
	Fair Value at December 31, 2024	Valuation Technique	Significant Unobservable Inputs	Relationship Between Input and Fair Value
Non-derivative financial assets:				
Unlisted shares	\$ 100,422	Market approach	Price-book multiplier Liquidity discount	The higher the price-book multiplier, the higher the fair value; The higher the liquidity discount, the lower the fair value

(9) Valuation procedures for fair value measurements being categorized within Level 3:
The Group's fair value measurement process for financial instruments classified in Level 3 is conducted by the finance and accounting department, which verifies the fair value of financial instruments using independent sources to ensure that the valuation results are consistent with market conditions, confirm that the data sources are independent, reliable, consistent with other data sources, and representative of observable prices. The department also regularly calibrates valuation models, performs back-testing, updates the inputs and data required for valuation models, and

makes any other necessary fair value adjustments to ensure that the valuation results are reasonable.

- (10) The Company has carefully evaluated the valuation models and valuation parameters that it has chosen to adopt, and therefore the fair value measurements are reasonable. However, when using different valuation models or valuation parameters may result in different valuation results. For financial assets and financial liabilities classified as Level 3, if the valuation parameter changes by 3% basis points, the impacts on the current period's profit or loss or other comprehensive profit or loss are as follows:

				December 31, 2025			
				Recognized in profit or loss		Recognized in other comprehensive income	
		Input	Change	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes
Financial assets							
Equity instrument							
Unlisted shares	Price-book ratio multiplier Control discount		±3%	\$ -	\$ -	\$ 3,559	\$ 3,559
				December 31, 2024			
				Recognized in profit or loss		Recognized in other comprehensive income	
		Input	Change	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes
Financial assets							
Equity instrument							
Unlisted shares	Price-book ratio multiplier Control discount		±3%	\$ -	\$ -	\$ 3,724	\$ 3,724

- 12.4 The Group was awarded the tender for the Taichung City Mercury Street Lamp Sunset Renewal Project (the eighth project area) on April 20, 2016 and completed the project on August 31, 2016 and was inspected and accepted on December 22, 2016. After the acceptance, the Group attached the settlement document and requested the Taichung City Government for payment. However, due to the differences in the understanding of the government's budget and the improvement status of the projects to be improved after the acceptance, the payment collection progress, which totaled \$83,943 thousand, had not yet been completed as of December 31, 2025. For the protection of the related debts, the Group had filed a civil lawsuit with the Taichung District Court on August 20, 2018. The Group had recorded expected credit loss of \$15,651 thousand on this receivable for possible impairment. This case was separately adjudicated by the Taichung District Court of Taiwan on December 3, 2020, and the Taichung Branch of the Taiwan High Court on December 27, 2024, respectively. In addition to the first trial judgment of \$44,496 thousand, the second trial judgment of \$32,619 thousand and interest calculated at 5% per annum from August 28, 2018 to the date of settlement.

Therefore, the Company did not need to estimate any additional loss. Subsequently, both the Company and the Taichung City Government appealed portions of the judgment. On November 19, 2025, the Supreme Court issued a ruling dismissing the Company's appeal regarding the \$4,581 thousand portion of the second-instance judgment against it, while quashing and remanding the portion concerning the \$12,744 thousand principal and interest still payable by the Taichung City Government Construction Bureau. As of December 31, 2024, this case is currently undergoing retrial at the Taichung Branch of the Taiwan High Court.

13. Supplementary Disclosures

13.1 Significant transactions information

- (1) Loans to others: None.
- (2) Endorsements and guarantees provided to others: Table 1.
- (3) Marketable securities held at the end of the period: Table 2
- (4) Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: None.
- (5) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: None.
- (6) Information about the derivative financial instruments transaction: None.
- (7) The business relationship between the parent and the subsidiaries and significant transactions between them: Table 3.

13.2 Information on investees (excluding information on investment in mainland China):
Table 4.

13.3 Information on investment in mainland China: Table 5.

Table 1

Ligitek Electronics Co., Ltd. and Subsidiaries
Endorsements and guarantees provided
December 31, 2025

In thousands of NTD

Number (A)	Endorser/ guarantor	Party being endorsed/guaranteed		Limit on endorsement/ guarantees provided for a single party (C)	Maximum balance for the period (D)	Ending balance (E)	Amount actually drawn (F)	Amount of endorsement/ guarantees collateralized by properties	Ratio of accumulated endorsement/ guarantee to net equity per latest financial statement	Maximum endorsement/ guarantee allowable (C)	Guarantee provided by parent company to subsidiary (G)	Guarantee provided by a subsidiary to parent company (G)	Guarantee provided to subsidiaries in Mainland China (G)
		Company name	Relationship with the endorser/ guarantor (B)										
0	Ligitek Electronics Co., Ltd.	O.H. Opto- Electronics (Dong Guan) Co., Ltd.	2	\$ 129,634	\$ 30	\$ 28	\$ 28	\$ -	-	\$ 259,268	Yes	No	Yes

A: Rules of code set as follows:

- (1) 0 for issuer.
- (2) The invested companies are sequentially numbered.

B: A public company may make endorsements/guarantees for the following companies:

- (1) A company with which it does business;
- (2) A company in which the public company directly and indirectly holds more than 50 percent of the voting shares;
- (3) A company that directly and indirectly holds more than 50 percent of the voting shares in the public company;
- (4) Companies in which the public company holds, directly or indirectly, 90% or more of the voting shares;
- (5) Where a public company fulfills its contractual obligations by providing mutual endorsements/guarantees for another company in the same industry or for joint builders for purposes of undertaking a construction project;
- (6) Where all capital contributing shareholders make endorsements/guarantees for their jointly invested company in proportion to their shareholding percentages; or
- (7) Where companies in the same industry provide among themselves joint and several securities for a performance guarantee of a sales contract for pre-construction homes pursuant to the Consumer Protection Act for each other.

C: Endorsement provided to specific endorsee shall not exceed 10% of current net worth of capital shares of the Company. Total amount of endorsement provided shall not exceed 20% of current net worth of capital shares of the Company.

D: The limit of endorsement provided in current year.

E: The amount of endorsement approved by Board of Directors. Yet if Board of Directors authorizes chairman as decider in accordance with No. 8 of Article 12 of Regulations Governing Loaning of Funds and Making of Endorsements/Guarantees by Public Companies, the amount refers to decision of the chairman.

F: The amount of actual expenditure which does not exceed balance of endorsements/guarantees of the endorsee.

G: Indicator for listed parent company endorsing subsidiary, subsidiary endorsing listed parent company, and endorser in Mainland China.

H: The limits related with net worth of the Company refers to the latest (2025Q3) financial statements audited by independent auditors.

- (3) The consolidated company owns two reportable segments: First LED Business Unit and Second LED Business Unit.

Main operating business

LED First Business Unit – manufacture and sales of various electronic components (LEDs & monitors) alongside the distribution, bidding, import and

export business on related product as well as raw materials.

LED Second Unit — Toys-related (excluding computer games) hardware plastic, electronic component, printed circuit board, flexible printed circuit, diaphragm switch, integrate circuit, electronic clock, electronic watch, calculator, floppy disc, LED monitor along with others.

(4) Basis of main reportable segment of the Group:

Separate management teams provide different product and service with the basis of strategic business unit. Considering every strategic business unit is in need of different technic and marketing strategies, each unit is managed and reported to operating decision makers separately.

(5) Loss (profit) of tax and other unusual profit or loss are not allocated to reportable segments. Furthermore, not all of profit or loss of reportable segments contain major non-cash factor except for depreciation and amortization. Amounts reported are identical to those reported to operating decision makers.

Accounting policies of segments are identical to afforested significant accounting policies.

(6) Segment performance is evaluated based on measurement of profit or loss before tax, exclusive of unusual profit or loss and exchange gains and losses. Sales and transfers within segments are recognized as transactions with third parties and evaluated by current market price.
